Labor Hits Reds' Move On Strike

By Terry Robards

Controversy broke out today over the efforts of a Communist leader of the Mineworkers Union to marshal support for a strike. The issue placed a strain on the tacit alliance between the miners and the Labor party opposition.

In a strongly worded statemen the Labor party denounced what it said was an attempt by Communists and other extremists to exploit the labor dispute to topple the government. A similar de-nunciation was issued last night by Prime Minister Edward Heath.

At the center of the controversy that suddenly has brought Mr. Heath and his Labor opponents into an unlikely and no doubt very temporary alliance is Michael McGahey, the out-spoken Communist vice-president of the National Union of Mine-

Labor members of Parliament were reported describing Mr. Mc-Gahey as the "best asset the government has" in the present conflict with the miners over wages. The union's leaders have ordered a strike vote that could lead to a shutdown of the mines as early

In their dispute with the government over pay, the miners for the past 11 weeks have refused to work overtime. This and other slowloan tactics have cut coal production by an estimated 40 percent. To conserve coal stocks at generating plants, all industry, except for essential services, has been put on a three-day work

state-run press has indicated it would welcome some restoration James Callaghan, chairman of Al Basth, organ of the ruling Basth Socialist party, said the 1970s looked like being "the seaward, general secretary, said today in a joint statement: "We niterly repudiate any attempt by Communists or others to use the son of flowering of the De Ganille miners as a political battering line in the Middle Best"-a reference to the pro-Arab policies ram to bring about a general of the late Prench president. strike or to call on troops to disobey is wful orders in the event

> nonsense. The Mineworkers have a long affiliation to the Labor party and we deny the right of Communists or extremist mem-bers of the NUM executive to speak for them on political is-

The statement did not refer to Mr. McGahey by name, but did mention the "extremist spokes-man" on the union's executive board, Mr. McGahey is the acknowledged spokesman for the six Communist members of the 27-man executive board of the

The Labor party has been extremely cautious about its support of the miners, lest it be given a share of the responsibility for the economic devastation that would be wrought by a lengthy strike of the coal mines.

As the principal opposition party to the Conservatives led by Mr. Heath, the Labor group wants to be assured of the maximum possible public support in

case Mr. Heath should call an

nattern of conduct on the part of his subordinates Although some Democrats on the committee favor holding the President accountable for closer supervision of those under him, they have, as a group, reached no similar informal agreement on the question of accountability.

clude holding the President re-

sponsible for negligence or a

Common Approach The meeting, the first held between Republican committee members and their counsel, was designed to develop a common approach to the conduct of the impeachment inquiry. In addition to agreement on the President's responsibility for subordinates, members reported the following informal agreements:

• That there is a need for a public hearing of an educational nature on the subject of impeachment, but one that relies on the committee's staff and not "outside experts."

• That subpoens powers granted the committee by the House must be "fully bipartisan" and that the ranking minority men.bers have powers equal to those of the chairman.
The position taken by the Re-

publicans on the President's liability leaves unclear how this approach will be used to deal rith specific charges made against Mr. Nixon in the Watergate and related scandals. According to a participant in the meeting, spe-cific cases were discussed with Mr. Jenner in an effort to clarify the matter.

An Example "Mr. Jenner used for an example the President's authorization of a 'plumbers' operation," this member said, "which included wiretaps and break-ins. could very easily constitute an offense because of his knowledge and actions. If President Nixon specifically authorized wiretaps or burglary to get information—that could constitute knowledge of the

The Judiciary Committee, which resolutions introduced in the House, is made up exclusively of lawyers. The present make-up (Continued on Page 2, Col. 1) West Germany] should proceed

man's attorneys that they had failed in an attempt to have Mr. Nixon appear voluntarily at the pre-trial and trial proceedings. Judge Ringer cited a ruling in the 1807 treason trial of Vice-President Aaron Burr as the legal precedent for his action.

"U.S. vs. Burr is command-ing...It will be up to the President or his counsel to show that it would be a hardship to appear or to assert executive privilege," the judge stated. In the Burr case, Supreme

Court Chief Justice John Marshall isitting as a district judgel issued a subpoena for a letter in the session of President Thomas Jefferson. President Jefferson turned over the letter without

Prosecutor Stephen Trott did not oppose the issuance of the subpoena, saying that "at this juncture," he felt it was proper. Outside the courtroom, he further

explained: "It is not the position of the prosecution to interfere with the defense in getting testimony from someone they feel is a material witness That is the American system and we remained neutral on that basis."

Delivery of Subpoena The subpoena would be delivered to the White House through the Superior Court of the District

of Columbia. Attorneys for both sides said that if the President resists the subpoens, it probably would prompt a hearing in a Washington court.

Douglas Dalton, one of Mr. Ehrlichman's attorneys, told Judge Ringer that he had attempted to have Mr. Nixon appear voluntarily, but had been turned down by James St. Clair, the President's top legal adviser on Watergate-related matters.

he would advise the President against voluntarily testifying." Mr. Dalton told the court, "but he said that possibly something could be worked out on questions to be submitted for the President to answer."

U.S. Drops Rules On Investments, Loans Overseas

By Edwin L. Dale Jr.

WASHINGTON, Jan. 29 (NYT).-The government abruptly ended today its array of controls over the outflow of dollars for lending and investing abroad, some of which are more than a decade old.

Terminated immediately were these three programs: The "interest equalization tax" on purchase of foreign stocks and bonds by Americans.

 The Commerce Department's elaborate controls on outflow of dollars for direct corporate investment abroad.

• The Federal Reserve Board's

"voluntary" program of restraints on bank lending abroad.

In a brief statement the Treasury said:
"The actions are appropriate in light of the recent improvements in the United States balance-of-

payments position, the strong Europe welcomes action

position of the dollar in the exchange markets, and the desirability of avoiding official restrictions on the flow of capital to points of need at a time when the balance-of-payments positions of many countries have been sharply changed by the repercussions of the higher oil prices."

In a speech to a savings-bond luncheon in Chicago, Secretary of the Treasury George P. Shultz called today's action "a major milestone" and said, "I rejoice" in seeing restoration of "the freedom to invest your funds where you think the prospects are the

most promising." He said the end of controls should lead to more foreign investment in the United States, and not only to more American

investment broad. Foreigners Hesitate

"Apparently," he remarked. "many foreign investors hesitated to invest in a country that needed a fence around it to keep money in."

President Nixon and Mr. Shulte had announced in February of last year, at the time of the second formal devaluation of the dollar's exchange rate against other leading currencies, that the three controls would be "phased Shultz noted today, "We bave been able to accomplish the final objective many months ahead of

Today's move came as a surprise because only a few weeks ago changes were made in all three programs. While the

Dollar Drops At U.S. Move

PARIS, Jan. 29 (IRT).-The lifting of U.S. capital controls caused the dollar to drop sharply on European currency exchanges today. while Eurobond issues by U.S. companies rose.

Against the deutsche mark the dollar fell to 2.812 marks from 2.8315 yesterday, while against the pound sterling it dropped to \$2,2375 from \$2,206.

The decline against the French financial, or tourist, franc was less dramatic. The dollar fell to 5.275 francs from 5.28 francs yesterday. In Switzerland it dropped to 3.33 france from 3.3455 france.

changes were all in a liberalizing direction permitting more dollar outflow-there was no hint that the controls would be ended altogether.

A high Treasury official said today that a major reason for ending the controls was the experience in the four weeks since they were liberalized. He noted that there had been "no dis-turbance in the foreign-exchange markets, no obstacles to our in-ternational negotiations."
"We tested the water and found

it was fine," he said. One problem in eliminating the controls was that other nations had insisted that the United States should adopt measures of this kind to help stem the outflow of dollars and aid the U.S. balance of payments. But that climate has now, apparently, completely changed. The dollar is strong and wanted by other countries, and the balance of payments has

vastly improved.

Threatens to Look Elsewhere

Pravda Says Pentagon Tries To Block U.S.-Soviet Trade

By Christopher S. Wren

newspaper, Pravda, today accused the Pentagon of trying to prevent American husinessmen from engaging in trade with the Soviet

Prayda contended that the Pentagon was trying to sabotage improving Soviet-American relations in order to justify big mili-tary spending allocations. The newspaper went on to hint

that such actions might lead the Russians to look elsewhere for trading partners. Although the Defense Department has been a perennial target

of the Soviet press, this was the

> other Western nations. **Endangering Security** The Prayda commentary alleged that Defense Department officials were warning American sinessmen that they endangered national security by selling tech-

> nological processes to the Soviet

the Russians have already active-

ly been seeking trade pacts with

Pravda dismissed the national defense contention as "absurd." It claimed that even the smarr can press agreed that the na-tional security argument had "only hindered" the development of economic, scientific and tech-nical cooperation between the United States and the Soviet

The last public Defense Department objection to trade with the Soviet Union was voiced during the Vietnam war by then Defense Secretary Melvin R. Laird after the Ford Motor Co. was invited in the spring of 1970 to help construct a truck plant on the Kama River, some 550 miles

east of Moscow. Giant Computers Mr. Laird had complained that the Soviet Union might send the trucks "to North Vietnam by shiploads for use on the Ho Chi Minh Trail." Ford subsequently turned down the invitation, though the plant was built by the Russians anyway.

In its commentary today, Pravda did not specify what products the Pentagon had allegedly objected to. One subsequent reference to the computer firm Control Data Corp. indi-cated that they might include the giant complex computers that the Soviet Union has been seeking to modernize its economy. Such computers could also be put to military use.

Agnew Guard Unwarranted, **Congress Told**

WASHINGTON, Jan. 29 (Reuters -- President Nixon had no legal authority to order Secret Service protection for Spiro T. Agnew after the former Vice-President resigned, the top U.S. governmen: auditor told Congress

Elmer Staats, controller-general of the United States, said Secret Service protection for Mr. Agnew cost \$89,222 betweeen the time he resigned last Oct. 10, to Dec. 15. The protection continues, but is expected to end shortly.

Mr. Staats, who is also head of the General Accounting Office, the investigating arm of Congress launched an inquiry into Secret Service protection for Mr. Agnew last November at the request of Rep. John Moss, D., Calif,

In a letter to Rep. Moss, which the congressman released, he said that the protection was authorized by Mr. Nixon in a directive to Treasury Secretary George P. Shuitz, who oversees the Secret

But Mr. Staats said: "In the absence of statutory authority for the protection of the former vicepresident, we conclude that the presidential directive to the Secret Service requesting such protection does not constitute legal au-thority to provide it."

The memorandum from the President to Mr. Shultz said: "You are hereby requested to di-rect the United States Secret Service to provide a detail for the protection of former Vice-President Spiro T. Agnew for a reasonable period of time."

The protection is still being provided, but Mr. Staats said the Treasury Department had told him it contemplates this will end shortly.

The Secret Service is also providing Mr. Agnew with cars and drivers, but Mr. Steats said this is authorized under existing legislation to ease the transition to the new Vice-President, Gerald R. Ford.

Bolivia Declares State of Siege, BESANÇON, France. Jan. 29 (UPI).-Employees of the bank-

Sees Foreign Plot

LA PAZ, Bolivia, Jan. 39 (Reuters) —Bolivia was under a state of slege today as armed farmworkers barricading roads to the nation's second city threatened to open fire on troops of President Hugo Banzer's rightist government

Declaring in a broadcast that Bolivia was threatened by an international subversive plot, Gen. Banzer imposed the state of siege -a form of martial law—which gives troops and police special powers of arrest, search and repression of opposition.

The move follows a week of strikes and protests by organized labor against a government-decreed doubling of prices of essential foodstuffs.

Outside of Cochabamba, Bolivia's second largest city, farmworkers were facing troops over barricades thrown across three access roads, Their leaders said last night that the workers would open fire if the troops advanced beyond a point 20 kilometers from

security investigation he had assigned them. It would negate any criminal intent on their part and that is why he would be a very important material witness."

The former White House staff members are seeking Mr. Nixta j testimony to support their assertions that they were acting as federal law-enforcement officers in whatever roles they played in the break-in.

This assertion is crucial to their claims that they were victims of "discriminatory prosecution"
when the Los Angeles County grand jury indicted them last Sept. 4 on charges of conspiracy and burglary Mr. Ehrlichman is also charged with perjury.

Arguments to Be Heard Judge Ringer will hear arguments on the discriminatory prosecution question at the Feb.

25 hearing. In another action, Judge Ringer issued a subpoena for Egil Krogh jr. to appear at the Feb. 25 hearing and at the subsequent

Krogh, who headed the "plumbers" unit, is scheduled to start serving a six-month jail term next Monday. He pleaded guilty to a federal charge of violating the civil rights of Mr. Ellsberg's former psychiatrist, Dr. Lewis J. Fielding in the September, 1971, break-in.

Krogh was formerly a co-defendant in the trial here, but charges were dismissed shortly after his guilty plea was entered last Nov. 28 on the federal charge. Liddy was one of the conspirators convicted in the Watergate break-in of June, 1972.

Albert Says Vote Certain in House On Impeachment

WASHINGTON, Jan. 29 (UPI). Speaker Carl Albert, D., Okla., said yesterday that there will be a vote in the House on whether to impeach President Nixon regardless of what the Judiciary Committee reports on the issue. Rep. Albert said 18 impeach-

ment resolutions have been introduced since July and such a resolution is "privileged," mean-ing its author can demand that it come to the floor for a vote by the full House even if the Judiciary Committee votes against

"Tve been led to believe by some pretty strong talk in the House that there will be a vote on the issue," Rep. Albert said. "One of the resolutions will be

The Senate Democratic whip, Robert C. Byrd of West Virginia, said that "as of now" there are not enough votes in the Senate to convict President Nixon even if the House impeaches him.

Sen. Byrd also said he does not think there are enough votes in the House to impeach Mr. Nixon. A majority vote is required to impeach and a two-thirds Senate majority is needed to convict and remove the President from office.

I would not ask any troops to disobey orders," he said adding that he merely wanted to be sure the troops would be aware that they would be doing work normally done by miners. "This is not mutiny," he said. "This is only allowing other people to understand the purpose for which they are employed." In his original statement, the

Communist leader was widely quoted as having said: "It may be that they will call in troops to move the coal, but troops are not all anti-working class. Many of them are miners' sons sons of the working class. "As far as I am concerned if

ISTANBUL, Jan. 29 (AP)-Twelve persons died Saturday in an avalanche near Mardin, in eastern Turkey, officials said. Seven persons were injured. It was Turkey's third major avahave come into the open since the last outbreak of fighting, Mr. Aladin drew a distinction between the people on the other bank of the Jordan and their monarchial

authority, since 600,000 of the 1.5

million people of Jordan are Palestinians. West Bank na-tionalists of political sophistication refrain from placing the entire country in the enemy camp. Most favor a form of union between the West Bank and Jordan. But I didn't say the Hashemites," said Mayor Elias N. Freij of Bethlehem, referring to the Jordanian royal family.

But for the time being, negative feelings on the West Bank have elation born of the war last October and its diplomatic aftermath. Israeli officials concerned with Arab affairs and militant Arab leaders agree that none of the sentiments expressed are new; only their open expression is.

More significant, in the eyes of Israeli officials, is the fact that those who had made no public utterances in the past are coming forward. One of them is the Mufti of Jerusalem, who is the Moslem religious leader and chief religious judge of the West Bank. Known for his antagonism to Israel and Jordan, he has throughout the occupation reframed from public statements.

But over cups of Arabic coffee in his East Jerusalem residence, the Mufti, Saad-Eddin el-Alami, said: "I believe we are under occupa-

tion and we are not free to say what we want or don't. But, I myself, I want the Arabs and Israelis to be good neighbors, when the Israelis leave we shall say what we want. Even King Hussein said he will ask the population what they want. "I am in prison now. What will be in the future we can say when Israel leaves our part." Annexation Issue

The Mufti spoke strongly

against Israel's annexation of East Jerusalem, which, unlike the West Bank, has been incorporated into the territory of its conqueror. "Jerusalem must, be divided as it was before 1967," the Mufti said. "The simplest would be to put walls between the two parts." The hope raised by the October war is attributed by the people of the West Bank to the military performance of the Arab armies. stronger unity of the Arab nations-particularly the support of the producers of petroleum, and world reaction to the political use of oil—and Israel's apparently greater willingness to make concessions in return for peace. The war is viewed as a victory for the Arabs by all levels of the

West Bank population, but for different ressons. The ordinary citizen thinks of it as a clear-cut military victory. The crossing of the Susz Canal by Egyptian forces is. on that level, the signal event. At a politically sophisticated level, the war is regarded as a victory not over Israel but over Arab feelings of inferiority to Israel, Extreme views calling for a re-

turn to Jordanian rule or pushing the Israelis into the sea find little expression. A Palestinian state which would, for the time being at least, accept a separate Israel is the consensus. But the manner of establishment, character and leadership of such a state remain vague and widely diffarentisted Conciliatory nationalists talk

about a binational, democratic state. The idea is rejected by many who fear it would

Oil Nations Seen Not Backing Bid by Saudis to Cut Prices

VIENNA, Jan. 29 (UPI).— Algeriz would not lever the pri Sandi Arabia's bid to reduce of its oil. He also cautioned it crude oil prices was unlikely to win the backing of other oil-producing nations, officials of the Organization of Petroleum Exporting Countries said today. At least two of Saudi Arabia's

11 OPEC partners—Iran and Algeria—opposed a reduction, the officials said. OPEC Secretary-General Abderrahman Khene, of Algeria, refused to comment on the Saudi proposal, but he said in a lecture yesterday that crude oil prices might, in fact, go up if the in-dustrialized nations of the West did not curb inflation.

The head of OPEC, whose 12 members produce 85 percent of the world's oil imports, said that despite the tripling of prices since lest fall, crude oil had not reached its real market value, Supply and Demand

"After a long period of stag-nation in prices, the oil-exporting countries have now submitted their merchandise to the laws of supply and demand. But they have not yet completely done so. Mr. Khene said.

Mr. Khene said.

The Saudi oil minister, Sheikh Ahmed Zaki Yamani, Sunday voiced reservations over high crude-oil prices and said that King Faisal was preparing "very important steps" to reduce crudeoil prices to avert worldwide eco-. nomic difficulties.

However, any decision to lower price levels could not be made by Saudi Arabia: alone, Sheikh Yamani said.

OPEC officials said that the Sandi price-reduction proposals were not being discussed by OPEC's Economic Commission, which is meeting here to discuss long-term price policy.

OPEC's members are Abu Dhabi Algeria, Ecuador, In-donesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia and Venezuela.

Rift Seems to Widen TOKYO, Jan. 29 (Reuters) .-A rift between Algeria and Saudi Arabia over oil-price cuts appeared to widen today, with the Algerian industry and energy minister cautioning Japanese oil leaders not to listen only to countries favoring price reductions. The Algerian minister, Belaid

Abdessalem, and Sheikh Yamani met members of the Petroleum Federation of Japan for two hours today.

The federation quoted Shakh Yamani as saying that King Faisal would send personal letters to the other five Persian Gulf oil states to try to persuade them to agree to a reduction in

State Dept. Tells U.S. Vacationers To Quit Grenada

ST. GEORGE'S, Grenada, Jan. 29 (AP).-The United States government has advised several hundred vacationing Americans to leave this Caribbean island.

George Moose, a State Department official, said yesterday he had come to Grenada from the American Embassy in nearby Barbados to deliver the message to U.S. citizens on the 133-

Mr. Moose said Americans should leave by Feb. 6, the day before Grenada is scheduled to break off its 200-year political relationship with Britain and become independent.

A British official, Prince Richard of Gloucester, may cancel plans to be on hand for the independence celebration, according to government sources

At the center of the trouble is Prime Minister Eric Gairy, dis-liked by many islanders who fear he will turn Grenada into a police state after independence. The former British colony became a British associated state

seven years ago. The message from the U.S. State Department came after many Grenada residents began fleeing the island.

U.S. Media Unit Says Nixon Fails To Back Charges

NEW YORK, Jan. 29 (WP) .--The National News Council yesterday criticized President Nixon for failing to back up his charges of "outrageous, vicious, distorted reporting" by the television net-

The President made his accusations at a televised news conference on Oct. 26. In the three months since, the

council has sought in vain to ascertain the specific complaints of the President so that it could study them, the council said in a report adopted here yesterday. We believe it is seriously detri-mental to the public interest for the President to leave his harsh criticisms of the television networks unsupported by specific details that could then be evaluated objectively by an impartial

body," the report said.
The 15-member council was founded last year, backed principally by the Twentieth Century Fund, to examine complaints as to accuracy and fairness in the national media. The Twentieth Century Fund is a nonprofit foundation specializing in re-rearch and public education.

Long-Range MIRV Capability U.S. Says Russia Tests New Missile

By John W. Finney WASHINGTON, Jan. 29 (NYT), -The Soviet Union conducted its first long-range tests of a new intercontinental missile with mul-tiple warheads last Friday and Saturday, the Defense Department announced yesterday.

The chief Pentagon spokesman,

Jerry W. Friedheim, described the test firings of the SS-19, an intercontinental missile comparable in size to the U.S. Air Force's Minuteman, as a significant milestone in the Soviet program to develop multiple warheads that can be directed to separate targets. These warheads are known as MIRV's, multiple independently targetable re-entry vehicles.

But it remains the assessment of the Defense Department, Mr. Friedheim said, that the Soviet Union will not have a missile force with such warheads in operation before 1976.

Mr. Friedhelm said that two of the SS-19 missiles were test-fired 4,500 miles from the Soviet missile research center at Tyuratam, near the Aral Sea, to a target area in the Pacific Ocean, 850 miles northwest of Midway Island. It appeared, he went on. that er ' missile carried multiple warheads. J.S. Modifications

The United States has had missile forces with multiple warheads deployed since 1970, and it is still modifying Minuteman and Poseidon missiles to carry these

warheads. The Pentagon had been predicting for four years that the Soported clashes at two points near viet Union was on the verge of Route 38 at Prek Roteang, nine developing multiple warheads hat could be fired at separate targets, One government force is pushbut it was not until last spring that the first flight tests were ing southward in an attempt to force groups of insurgent infiltraobserved by the United States. tors back across the Prek Thnot At the time, three of the new River. A second government strategic missiles that were being column is advancing toward the developed by the Russians were given short-range tests within the Soviet Union with multiple war-

> Schlesinger in August. That the Soviet Union could fire such warheads raised concern in Pentagon circles that the Soviet missile force might gain the ability to attack Minuteman bases in the United States.

heads. This was disclosed by Secretary of Defense James R.

This, in turn, has been the main technological impetus behind Mr. Schlesinger's current emphasis on developing "counterforce" weapons capable of attacking military installations, including missile silos in the Sovict Union. The SS-19 is one of four new

strategic missiles being developed by the Soviet Union. The tests last weekend marked the first time that one of the missiles had been fired the full distance of the missile range.

Mr. Friedheim noted that a "full-range test" was necessary to deployment of a missile and said the Pentagon believed that the Soviet Union was "well along" in its test program for the SS-19.

Ray Wins Review Of Guilty Plea in Death of Dr. King

CINCINNATI, Jan. 29 (AP),-James Earl Ray, 41, confessed slayer of Dr. Martin Luther King jr., won a review of his guilty plea from the Sixth U.S. Circuit

Court of Appeals today.

The appellate court, in a 2-1 decision, remanded Ray's petition for a review to the U.S. District Court in Nashville, Tenn.

The appeals court accepted Ray's contention that he was given improper legal advice in his 1969 guilty plea. It cited two letters written to Ray by Percy Poreman, his former attorney. The letters revealed arrange-

ments for Mr. Foreman to receive \$165,000 from royalties on publications and mories based on Ray's case. Also, the letters in-dicated that Ray's share of the money would be delivered only on his plea of guilty with "no embarrassing circumstances to take place in the courtroom." Ray is serving a 99-year sen-tence in the Tennessee State Penitentiary for the April 4, 1968. slaying of Dr. King.

Poll Finds Democrats Favored in 1974 Vote

NEW YORK, Jan. 29 (UPI) .-A Louis Harris poll released yesterday said voters would favor Democratic candidates by a 50 percent to 32 percent margin if this year's congressional elections were held in January instead of November, While a September poll gave

the Democrats a 53-to-31 per-cent margin, "the lead for the Democrats is still massive." the survey said. "There seems to be no doubt that the GOP is in deep trouble in the off-year elections as this key political year

Chlorine for Water

Running Short in U.S. WASHINGTON, Jan. 29 (Reuters).—The United States faces a serious shortage of chloring to purify drinking water, govern-ment officials said today. Officials of the Commerce

Department and the Environ-mental Protection Agency told the Senate Commerce Committee they want standby authority to allocate chlorine to ensure that water systems get adequate supplies. Chlorine is also widely used in the manufacture or processing of plastics, pulp and

NEW YORK, Jan. 29 (AP).— tackle, apparel, furniture, appur-The United States demanded for-tenances, cargo and stores." feiture of the Bulgarian trawler Limoza yesterday, charging that the 269-foot vessel was fishing within the 12-mile limit.

The demand was made in & civil complaint, filed in addition to criminal action already under

The Limoza was captured by the Coast Guard in hot pursuit early Saturday 13 1/2 miles off Little Egg Harbor, N.J., as it headed out to sea. The ship was brought to Governor's Island here, headquarters of the 3d Coast Guard District,

It is being held pending outcome of the criminal complaint. to be heard Feb. 5, which could bring a one-year jail term for Capt. Peter Todorov Donchev, forfeiture of the vessel and a fine

of up to \$100,000. The statute under which that complaint was filed also permitted the United States to institute a civil action, which it did yes-terday. This called specifically for selzure of the "trawler and its

Georgia Rejects U.S. Amendment. On Sex Bias

ATLANTA, Jan. 29 (AP).-The Georgia Legislature rejected the proposed women's equal rights amendment to the Constitution yesterday when the state House of Representatives voted, 104 to 70, against it.

The vote came after a 3 1/2hour debate, during which opponents argued that the amendment, designed to make men and women equal under the law, would subject women to military drafts and unisex totlet facilities, and would sanction homosexual marriages.

Rep. Dorsey Matthews said the amendment is "so stinking of Communism, it's just pitiful to think of doing something like this to America."

He said it would "lower our ladies down to the level of men." legalize homosexual marriages, require wives to provide 50 percent of a family's support and preventing segregation of the Thirty-two states have ratified

the amendment; 37 are necessary to make it a constitutional amendment. States have until 1979 to act on the amendment. and legislatures, such as Georgia's, which have rejected it may reconsider the amendment at any

Rep. Grace Hamilton, one of two women in the Georgia House, argued that the amendment would require only that men and women be treated equally under

Flooding Ousts 500 In West Tennessee

NEW YORK, Jan. 29 (AP).— The surging Mississippi River. flooding thousands of acres of lowlands in west Tennessee, has forced about 500 people to fles their homes.

The authorities said the river had spilled over about 30,000 acres of farmland. A spokesman for the National Weather Service said the river would crest at Memphis on Sunday at 36.1 feet, which is 2.1 feet above flood stage at the city. The river stood at 34.8 feet yesterday.

tenances, cargo and stores."
The "cargo and stores" could mean "all fish illegally taken or retained from the established fisheries zone contiguous to the territorial waters of the United

On hand in the U.S. attorney's office were Coast Guard officers of the cutter Unimak and enforcement agents of the National Marine Fishery Service.

James M. Murphy, one of the NMFS agents, said the Bulgarian trawler was the first vessel detained on the U.S. Atlantic Coast since the 12-mile limit was set in 1966. He said 18 Bulgarian sterntrawlers had been sighted fishing off the U.S. coast in the past

The Coast Guard estimated that the five-year-old trawler, a complete floating factory for pro-cessing fish, was worth about \$1.2 million. It had a catch of 183 tons of mackerel when seized. The Limoza was given 10 days

to respond to the complaints. In a related action, a Manhattan lobsterman filed a \$65,000 damage suit against the Bulgarian government, charging that one of its fishing boats had destroyed his fishing equipment in 1971. The complaint, filed by Capt, Kevin Koltz, president of the Transatiantic Scafood Co., Inc. sought to attach the Limoza as a source of assets if he wins his claim.

The complaint said the Bul-garian vessel Chikoniya had ignored a warning and deliberately plowed through a field of the plaintiff's lobster pots 80 miles out to sea on May 2, 1971. The Bulgarian government,

said to be the owner of the Chikoniya, was given 20 days to answer the complaint.

Houston Trial Faces a Delay

HOUSTON, Jan. 29 (AP).-The state and defense agreed today in a surprise move that Elmer Wayne Henley, 17, a defendant in a mass murders case, connot get a fair trial in the Houston area at this time because of prejudicial publicity.

delay in the trial is inevitable. The court recessed until tomor row. Mr. Henley is accused of killing several of 27 young victims in the Ho. .ton area over

A Future for Cyprus

the death of Gen. George Grivas-with the Greek government calling him a national hero, for instance, yet refusing him a funeral in Athens—are really reflections of the ironies that history has inflicted on Cyprus. For that island, to which Grivas devoted so many years of struggle, represents one of those tragedies of time and circumstance that often baffle modern statecraft with conflicts of race, culture or creed-like Ireland, like Palestine, like the lands of the Basques and the French Canadians. And it is perhaps the most paradoxical element in Grivas's career that his death may bring peace, and a degree of harmony, to Cyprus.

The island was Greek, conquered by the Turks and partly settled by them-then turned over to the governance of the British. When the world no longer was content to regard an act of force, military or diplomatic. as a final answer, the Greek Cypriots turned on the British under the leadership of Grivas. But British withdrawal from Cyprus could not of itself end an historic dilemma, any more than it did in Ireland or Palestine. Modern Turkey, which had already lost most of its empire, did not want-as Grivas wanted -the island turned over to modern Greece. The Turkish Cypriots did not want

to be overwhelmed by their Greek neighbors. Cyprus, under United Nations supervision, became independent, on the assumption that

The apparent contradictions that surround the Turkish minority would receive special safeguards. Archbishop Markarios, the Greek Cypriot President, sought to achieve some kind of balance, but the exponents of Enosis, union with Greece, continued to fight on. It is now believed that Grivas lived on to become more important than the cause he represented; that his death will permit the kind of accommodation between Greeks and Turks in Cyprus which would end the long struggle between them. Both Greece and Turkey are willing to accept such an accommodation, and thus Cyprus may look to a peaceful future.

> If this should be the case, it will give hope to many lands overlaid by many historic bitternesses, and plagued by those who seek absolutist goals by force. After all, it is not impossible to reconcile ethnic, linguistic and cultural differences within a community: Switzerland achieved unity while maintaining diversity. German-speaking Alsace is very much a part of France. It is not essential to a strong national life to suppress the vitality of minority cultures-nor is it necessary for such cultures to fragment a nation. George Grivas toiled to bring Cyprus back to mainland Greece - and in the process helped create a nation. For him, that would be a disappointment, for the Cypriots it could well be a satisfactory compromise. for the world it may be a useful signpost to more rational national life.

A Time to Speak

President Nixon's political situation becomes each day more untenable. The widespread confusion and lack of public trust in the administration's statements concerning the oil shortage only demonstrate that the essential links of confidence between President and people are severed.

Yet Press Secretary Ziegler is once again saying that Mr. Nixon "is determined not to become consumed for another year by the Watergate matter." That has the same significance as a man with a grave illness announcing that he is determined not to be consumed by his disease. Mr. Nixon's continuance in office is no longer a matter to be decided by his own determination.

What is decisive now is the courage, integrity and devotion to the public good of the members of the House and Senate and of leading citizens in private life. It is a time for men and women to listen to their consciences. It is a time to speak and speak plainly.

There is little doubt in Congress that Mr. Nixon was deeply involved in the Watergate scandals; but there is also a widespread feeling that it would be impolitic to come out and say so.

Mr. Nixon's remaining strength, such as it is, rests partly in public ignorance and confusion. Much of the public, unfamiliar with the procedures of impeachment, is uncertain about the political costs and implications of removing a President who has yiolated his oath of office. As congressmen

discovered in visiting with constituents during the past month, many voters are looking to their representatives and senators to exercise their best judgment and to give leadership to the country on this difficult problem.

If men and women of influence in Congress spoke their minds boldly and forthrightly, Mr. Nixon would be unable to fall back on such gasping pretenses as "Operation Candor." There would be an end to offensive and embarrassing insults to everyone's intelligence such as Vice-President Ford and Senate Minority Leader Scott have inflicted upon the public in recent days with their tales about mysterious evidence that would exonerate Mr. Nixon but which he refuses to release.

Some plain-spoken leadership is beginning to emerge. Rep. Thomas P. O'Neill, the House Majority Leader, rightly stated this week that the country no longer regards Mr. Nixon as a credible President and that it would be "in the best interest of the nation" for him to resign now. Rep. Wilbur Mills the influential and conservative chairman of the House Ways and Means Committee, has expressed a somewhat similar judg-

For more than nineteen months, the Watergate scandal has been poisoning the public life of the nation. This squalid, demeaning performance has gone on much too long. It is time for the leaders of both parties in Congress to do their duty.

THE NEW YORK TIMES.

International Opinion

Paris Versus Washington

Tacking about with a minimum of precautions, France appears to be turning its back on Europe, at least for a few weeks, in order to try its luck in the Persian Gulf . . . But just as Jobert was about to leave for Saudi Arabia, Kissinger deliberately showed his disapproval . . . Under the circumstances, a confrontation between Washington and Paris seems almost inevitable, since their conceptions conflict at all levels, tactical, energetic and commercial. Will Mr. Jobert, who is a few lengths ahead of his competitors, manage to gather substantial, irreversible advantages? . . . We will have to act fast, because our rivals won't remain inactive. In case of success, France will have secured for some time the good functioning of her economy. But this might well be at the price, not only of a new delay in the strengthening of Europe, but also of a weakening of Atlantic solidarity.

—From Les Echos (Paris).

The UN and the Paracel Islands

On the Paracel islands in the South China Sea, a conflict of sovereignty between South Vietnam and China has been decided by force of arms, with the numerically superior Chinese gaining control. The cause of the

conflict was not so much fishing rights, cited as the ostensible reason, but the seabottom oil reserves suspected in the area. The affair was a classic example of the Security Council's impotence to enforce the UN Charter's stimulation that such conflicts be settled peaceably, whenever one of the major powers with the right of veto on the council is involved as the aggressor. -From the Neue Zuercher Zeitung (Zurich).

Brezhnev's Visit to Cuba

He (Castro) is receiving the Soviet leader (Brezhnev) at the very least as a dependent if not a satellite of Moscow's power. Yet one of Mr. Brezhnev's main concerns will be that his visit should not offend the United States but might even serve to improve Cuba's relations with its unyielding great neighbor.

The talk will be of coexistence, of the imperatives of Mr. Brezhnev's own détente with the United States, to which Dr. Fidel Castro's surviving revolutionary ardor must prudently accommodate itself. The rich Communist uncle cannot be expected to go on meeting the bills if the Soviet world outlook of today is to be disregarded,

The time is past for Dr. Castro's querulous anti-Americanism to pollute the new atmosphere of goodwill.

-From the Times (London).

In the International Edition

Seventy-Five Years Ago

January 30, 1899

PARIS-A collision with a body traveling at the rate of one hundred thousand kilometers an hour is an event that appeals to the imagination, and the appeal comes with double force when the colliding body is the globe we inhabit. The chance of a collision with Belia's comet on November 14 next, the catastrophe which the Austrian astronomer Herr Rudolph Palb predicts, is so remote that it can only be represented by odds, unknown in betting transac-Mons, of a billion to one.

Fifty Years Ago January 30, 1924

LONDON-After a fourteen-hour parley between railways managers and the executive of the striking ratiwaymen, a settlement was reached this morning. With this strike out of the way, it will be possible for the Labor Ministry to devote its attention to the threatened dock and road transport strike. A storm cloud of possible more ominous consequences has appeared on the horizon in the announcement that the miners' executive will meet in Landon tomorrow to consider démands for an increase of wages from 20 to 40 percent.

'Thank You, Sir; Thank You, Ma'am... Looks as If We Can Buy Enough Fuel for the Next Leg.'

Sauce for the Gander Also By C. L. Sulzberger

French weapons sold to the

Saudis can't somehow be used

DARIS.-Whatever happens at President Nixon's conference of petroleum consumers next , the kind of united front both he and Secretary Kissinger have been proposing to our allies eemingly vanished long before the opening session.

France and Britain are racing around among oil producers try-ing to set up long-range barter deals which include massive sales of weapons. Italy has been making googoo eyes at the Arabs but so far has achieved relatively little concrete progress-not for lack of trying but it isn't in the modern arms husiness. West Germany appears embarrassed about but seems on the verge of a massive tank deal with non-Arab

France's Entry

Washington dislikes bilateral deals trading European arms (and machinery) for Arab oil. But Washington, as most Europeans are quick to point out, has shared with Moscow the dubious honor of being the leading weapons supplier in the Middle East. And U.S. supplies go not only to Israel but to Saudi Arabia, Jordan, Lebanon and Iran.

The biggest entrant into this superpower competition is France. which had already done good business with Libya and other lands. The French are really losing out in the military aircraft because they haven't produced a new type since 1965 and their next won't be saleable for years. Yet they've been unloading planes that are no longer the latest thing—like the Mirage

 as well as their excellent tanks. Michel Johert, the brilliant and quietly determined French foreign minister, is now travelling about the Arab world. He has already guaranteed access to almost a tenth of Saudi Arabia's annual petroleum output for the next 20 years. This notably eases France's balance of payments problem and assures new markets for weapons and machinery, thus damming threats to industrial unemployment here,

Just what countries like Saudi Arabia or Kuwait want with France's excellent AMX tanks is hard to reckon. Kuwait might consider them useful as protection against Iraq but, since Egypt

got out of Yemen, Saudi Arabla more intimate consultation with this side of the Atlantic might isn't threatened by anyone. There is no more active war in Palesnot have eased the problem at tine but there doesn't seem to be any tight guarantee that new

against Israel. However, although such a guarantee was given in the case of French military aircraft sold to Libya, it wasn't fully honored. There is evidence some Libyan Mirages were used in the October war against Israel

Moreover, since Saudi Arabia has been the treasurer for Egyptian arms purchases, Paris seems to reckon that its deal with King ing two big new markets. A freighter was loading AMX tanks in France for Saudi Arabia the day the October war began. It sailed with its cargo-without any trouble.

Jobert's trip marks no new turn in French policy. The new turn comes in England, now in the middle of a massive crisis. Since the last Israeli-Arab war, Prime Minister Heath has indicated impatience with the Israelis and with U.S. efforts to promote a users committee to face the Arab oil cartel

The London Foreign Office is traditionally sympathetic to the Arabs. Now Heath has promoted Ian Gilmour, generally held to be pro-Arab, to defense minister Some observers speculate that one reason was to facilitate barter deals exchanging British arms for

Washington's known discontent with these European develop-ments is met with strong rebuttals. The Times of London publiahed a comment on Friday objecting to "Dr. Kissinger's practise of seeing Sir Alec Douglas-Home in a room at London Airport" as "tiresome and somewhat

"Perhaps something is wrong with his (Kissinger's) program or his standard of values. Certainly there is little dignity for either in having Sir Alec attend on him in some waiting room." Such reactions seem to have produced somewhat lower Washington requirements for the forthcoming petroleum conference and induced a more flexible and tolerant standard vis-a-vis the

European allies. One wonders if

'Godfather' Give-Away

By William F. Buckley Jr.

NEW YORK -- I am greatly refreshed by the words of Mr. Charles Binhdorn, chairman and chief executive officer of Gulf and Western Industries, which, for reasons I do not wholly understand, owns "The Godfather." Mr. Bhihdorn is just back from the Middle East and it occurred to him that "The Godfather" is showing in Iran for less than "Dr.

Zhivago" 10 years 2go. The reason is that the distributor is recuired by law not to sell at a higher price than was then current, never mind inflation. Mr. Blubdorn points out that the government of Iran has not done anything conspicuous by way of holding down the price of oil, its principal export to the United States, and indeed to the world at large. "If I was to bid 1 dollar for a barrel of their oil," he said, "they'd turn me down, I think the price for 'The Godfather' is too low." And indeed Iranian oil is now selling for 10 times what it sold for 10 years ago.

The Rationale

Mr. Blubdorn then mused about the excuse given by the Iranian government for holding down the price of movie tickets. That way, says the government poor people can afford to see the movie. Mr. Blubdorn is not in the least opposed to poor people seeing "The Godfather." but wonders why Gulf and Western should subsidize them. There is no argument, he points out, against an Iranian Marshall plan they've got the money. There are a "billion people" in India

who don't get to see movies because they are too poor. Why doesn't Iran subsidize the price of movies? The United States spent 20 billion of those old dollars to help Europe et al after the war. Why shouldn't Iran now turn philanthropist? And of course in talking about

Iran, we single out the most obliging of the oil-exporting nations in the region. The others for the most part participate in the boycott that has caused the great scarcity from which in greater and lesser degree, the world suffers. But all the world suffers from the extortionist increase in the price of oil, and Iran most cheerfully led the pack a few weeks ago by selling oil at auction and getting for it a price more than double the price of only a few weeks before. It requires hard study to sort

out the cibical and economic strands in the tangled question But one begins by observing that the price of oil is high only in part because there is a physical shortage. That shortage is at least for the short term mostly insignificant. What there is is a contrived shortage, and this is the result of a clear act of economic aggression by the Persian Guf oil states. It is a great worry how to deal with it. The easy way is to throw them Israel, and swallow their price es. That is no way to get

either strategic satisfaction or strategic results. The appetite for control of that oil by the Soviet Union will not diminish with the humiliation or even extinction of Israel. (And the vulnerability of Japan and the Western powers will not diminish until an alternative source of fuel is developed, and we are talking 10-15 years.) The figures for 1973 are hard

to come by, but it would be approximately correct to say that Saudi Arabia, Ruwait, Libya, Iraq, the Emirates, and Iran among them imported some 7 billion dollars in goods. It would seem to me perfectly fair-just

price of all goods purchased o the oil-exporting countries the have raised the price of their of by a corresponding percentage Thus a tractor that used to cost say, \$4,000, would be billed a \$8,000, after the last doubling in the price of oil. Olow this of course would re-

quire a great deal of coordina tion. And that is never easy But the impulse is certain; there, because the least depend able of the victim-states -France for instance—could be made to understand that, in the absence of a response of some kind, the situation is going to go quite out of hand.)

Here is one to chew on. I have heard it projected that by the end of 1974, the Persian Gulf states will have \$70 billion more than they can possibly spend towards their own orderly development. By the end of the decade, they would have reserves of one trillion dollars. With one trillion in your pocket, you can buy all the stock at current prices in every market in the

But of course money is no good unless it can buy you something. And for a very long period, the non-Arab world is going to be the producer of the goods the owner ship of which distinguishes be tween the poor and the rich notions. And it is something of the order of the Blundorn forms lation that we will need to seek out, ·

The International Result Tribune welcomez letters from readers. Short letters have a better chance of being published. All letters are subject to condensation for space ressons. Anonymous letters will not be considered for publicstion. Writers may request that their letters be signed only with initials, but preference will be given to those fully signed and bearing the writer's complete address.

—— Letters

That 'CIA Hunt'

Perhaps Bernard Nossiter would not have written that unflattering piece on me (Jan. 23) had I been more careful in my drafting of the letter to The Times, and had I gone more into detail when he called me about it on the telephone. But may I now set the facts straight?

First, the headings: "Tale of OIA Hunt in U.K. Lacked Only Facts" and "American's Letter to Times Admits Union Operation Was a 'Suspicion.'"

Much more than a suspicion was behind the Times story to which my letter was a reply. The information shown to me by the Times reporter appeared to be hard fact, originating from official sources. As my letter to The Times stated, my suspicions were only that the information might not be the truth, and that the embassy, alas, was being truthful in its denial.

Second, and more important, Mr. Nossiter says explicitly that I gave the information to The

Times—understandable, since the now, I for one am convinced that Times piece was certainly so the empassy's denial is the truth worded as to make it appear that and that there is a concerted this was the case. The truth is effort from somewhere to add that I gave no information to just one more element of dissen-The Times. I gave only opinions, sion to this already turbulent making it clear that that was society. This is the sort of thing all I had, opinions, with no facts the CIA and other agencies ought whatever to back them up. to be running down—it is what Finally, I am not a "self-styled they are for.

CIA consultant" nor do I "make MILES COPELAND. London. a living in London." I have had no connection with the agency since 1957, and I have long ago Query for Buckley made my "living"-not in London

> Re "Solzhenitsyn and Ques-tions for the West" by William F. Buckley, IHT, Jan. 17. > DEATH NOTICE ... Maisrich Edith (nee Wise), After in illness in her home at the Hotel fin, New York, N.Y. 19619, on 877 24 1978 Beloved wife of the Otto C. Sommerch Cheraned er of Jama Sommerch, and the Ann Leach

stant death. Himphrey recalls only too well the time last February when he and his friends were sitting on this same veranda drinking and laughing when they heard shots and explosions at the neighboring farmhouse. By the time they got there, the guerrilles were gone, having sneaked across Humphrey's property and right by his veranda. The neighboring farmer's wife was dead.

total serenity with possible in-

With two rifles propped against the wall. Humphrey told over lunch how the guerrilla threat has pulled together the small community of isolated farmers living on the escarpment. "You've got a very much closer-knit white population than before, and this is a great help," he said.

Each farm is now in direct radio communication with the nearby Centenary police station. Should an attack come, Humphrey knows that within minutes there would be policemen or regular army soldiers on their way to his rescue.

"I don't think an attack is all that likely, but you must be prepared." he said. Prepared he is. A tall fence topped by barbed wire surrounds the exposed rocky terrain at the back of the house. Humphrey is building a triple line of fences, the center one charged with electricity, around the entire perimeter of his house. lawn and gardens.

In addition, he has installed all kinds of electrical warning devices which make it seemingly impossible for guerrillas to get anywhere near the house with-out being detected. "The day of the sandbag is gone." noted Humphrey.

Night Patrol During the night, while Humphrey and bis wife are sleeping. members of the police reserve now stationed at all the farmhouses on the escarpment remain awake and on patrol.

The guerrilla presence does not seem to have changed the routine of daytime farm life very much. Driving a visitor over the washboard dirt road that connects the tobacco and corn fields of his still largely undeveloped farm, Humphrey abows no concern for the possible presence of terrorists.

But the terrain seems made for ambushes. Only a few months ago Humphrey, a reservist in the Rhodesian police, was helping the army rout guerrillas from the hillside cases and dense brush in and around his farm.

At dusk farm life suddenly changes. Humphrey, his wife and any visitors retreat within the confines of his fortified brickand-wood, ranch-style home and stay there, with their Belgianmade automatic rifles always at the ready, until the next morn-

From six o'clock on life is a little bit different," said the grayhaired, bespeciacled farmer with a smile, "You've got to have all your defense preparations ready. But once that is done, you have quite a normal evening."

A soft-spoken, 57-year-old grandfather with a daughter married to another nearby farmer Humphrey seems unperturbed by this new style of Rhodesian

Pioneer Living -

He and his family moved into this area in 1955 when the stateowned land of the Centenary district was carved up into farms varying in size from 1,500 to 5,000 acres and put up for sale. He has 100 acres planted in Virginia tobacco, another, 150 in corn and more than 100 head of cattle. Buoyed by rising prices for

tobacco, corn and beef abroad, Humphrey is now opening up more land on his 3,100-acre farm. He is also talking about making the first improvements on his somewhat dilapidated tobacco

curing equipment and barns. Noting that even farms on the escarpment that were vacant before the guerrillas began attacks are now occupied by young people, Humphrey says he feels confident of the white farmers' will to stay.

"The outlook is much brighter now." he said. driving off to take up his turn as nighttime radio man at the Centenary post

Ulster Widow, 80, Dies as Gunmen Riddle RAF Bus

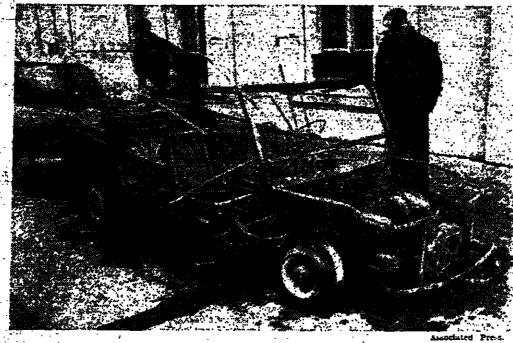

BELFAST, Jan. 29 (UPI).—Irish Republican Army men today machine-gunned a Royal Air Force bus, triggering a battle in which an 80-year-old widow in a nearby house was killed and two airmen were wounded, police said.

The IRA men, in an automobile, swept past the bus with machine guns blazing. The bus, car-rying RAF men and civilian employees, was rolling through the town of Newcastle, 35 miles southeast of Belfast. It was on its regular morning run to Bishops-

court RAF base, police said. Three armed guards on the bus returned fire.

returned lire.

Police searching the area of the ambush found the body of Mrs. Matilda Witherington, after noticing that her bedroom window had been smarhed by a bullet. One RAF man of the bus was shot in the leg and another was grazed on the shoulder, police said. They said at least 12 shots

One of the Meharis burned Monday night in Paris; 42 cars have been set afire.

Paris Arsonist Burns 42d Car Within Month

PARIS, Jan. 29 (IHT:—Police searched today for an argonist who has set 42 automobiles aflame here in the last month.

The latest incidents occurred last night, when two Citroën Meharis were burned in the 13th

Police records show that most of the 42 incidents since Dec. 28 occurred in the 13th Arrondis-sement, and that most of the cars were made by France's Citroën—mostly Meharis, a light jeeptype vehicle, or small, low-powered Citroëns.
The arsonist's layored method of burning a car

is to slash a hole in the sun roof and throw in two cans of inflammable liquid, police reported.

- He always strikes at night and mostly in the 13th and 14th Arrondissements, in the southeast section of the city.

Police sources said the pattern of attacks suggested that one man was responsible. Investigators are working to establish if there

is any link with an arsonist who set four Paris supermarkets ablaze last Wednesday. One of the stores was extensively damaged, but there were

Police said they found broken glass, apparently from a phial of inflammable liquid, at the scene of each store fire.

Now Living in U.S.

Four Former Inmates Depict Life in Soviet Prison Camps

By Theodore Shabad

-Four men who served terms in Soviet prison camps, during the Stalin era and more recently, recalled their experiences Sunday evening on the National sion news program 'Special Edi-

The former inmates, who described themselves as political prisoners, included three New York area residents and a Los Angeles physician. They talked about their arrests, interrogations by the secret police, about living on a thin gruel of potatoes and cabbage and about being marched to forced labor under the supervision of armed guards and dogs. Tom Pettit, NBC News correspondent, was the narrator.

The program, for which NBC constructed a 15-by-25-foot model of a camp, sought to document the account of the Soviet penal system by Alexander I. Solzhenitsyn in "The Gulag Archipelago, 1918-1956." The book was published in Russian in Paris last month and excerpts have appeared in The New York Times. A complete translation is to be published by Harper & Row in May.

2. Years in Labor Camp

One of the participants in "Special Edition" was Dr. Michael Devenis of Los Angeles, who was arrested in Lithuania at the time of the Soviet take-over of that independent republic in 1940 and was sent to lumber camps near the Arctic Circle. "Three men came to my farm."

he recalled, "and said to come with them for half an hour. But I never came back for two

Describing his camp experiences. Dr. Devenis said: "I had to go with the other

prisoners to the woods and cut the trees or peel the bark from the logs. It was very hard because the required work quotas were set very high. If a prisoner didn't fulfill his norm, he was accused of sabotage or his ration of bread was cut."

Myron Myclo, of Merrick, Long. Island, said he was a member of a nationalist group fighting against the Soviet authorities in the Ukrains after World War II when he was captured in 1947. He spent nine years in Siberian camps, most of the time in Kolyma, one of the most notorious camp complexes.

In a description of camp life reminiscent of Mr. Solchenitsyn's earlier novel, "One Day in the Life of Ivan Denisovich," Mr. Myclo recalled in broken English:

"When they take us to work, we have to keep five men together by hand, and we can't talk; we have to keep our head down, like this, and walk. About 30 prisoners were in a brigade, with five or six convoys and about

Another participant in the

NEW YORK, Jan. 29 (NYT). Chappaqua, N.Y., told of having been arrested in 1950 after he had sought to leave the Soviet Union for Israel.

"It was probably around one or two o'clock at night when I MGB (as the security police was then called 1, a captain, a lieutenant, and three soldiers with rifles. They ordered me to get up and get dressed."

Mr. Brackman was amone the men under forced labor who built an entire city in northern Siberia, the nickel and platinum mining center of Norilsk

"We were taken for about five kilometers [three miles] from the No. 4 camp to the Norilsk construction area," he recalled. We were brought there in long columns of prisoners, five in a row, probably 200 in a column, surrounded by dogs and guards bayonets and machine

The most recent experiences were depicted by Yuri Handler of Woodside, Queens, who was ar-rested in Leningrad in 1968 for criticism of Soviet policies and spent three years in camp. He said he and a group of friends were arrested as they were drafting a letter of support for the Czechoslovaks during their 1968 experiment in Communist liber-

"They managed to break me during interrogation-not physically, I mean," Mr. Handler said. The KGB [secret police] now does not torture political convicts. You are situated in a small cell, in a cold cell, in a raw cell, and you stay in that cell during several months.

"I did not say one word to the interrogators for almost two months. They said they would arrest my wife. They said they would send me to a psychiatric one day I began to talk."

The Soviet authorities have denied that mental hospitals are being used to hold dissidents because of their political beliefs

Two Men Held In U.K. Murder

LONDON, Jan. 29 (AP).-Two men were charged today with the Jan. 25 murder of author James Pope-Hennessy, 57.

John James O'Brien. 23. who friends described to newsmen as a playboy on the fringes of jet set society, appeared briefly in court and was ordered held for a further preliminary hearing

Police said later they had additionally charged Edward John Wilkinson, 22, an unemployed Londoner, and would bring him into court tomorrow. A third man was reported still under ques-

Mr. Pope-Hennessy, brother of Sir John Pope-Hennessy, director of the British Museum was beaten rogram, Roman Brackman of to death in his London apartment.

had protested that she wanted Pan Cosmatos, and written by swift action to suppress the movie, which she found offensive to the memory of the Pontiff,

In March, 1944, Italian partisans exploded a bomb in Rome's Via Rasella, killing 32 German soldiers. In reprisal, the Gestapo and Italian Fascist police rounded up 335 Italian men and executed them in the Ardeatine Caves outside Rome.

In his book on the massacre, "Death in Rome," Mr. Katz suggested that the Valican had knowledge of the impending reprisals but did nothing to stop His screenplay for the movie

creates the role of a fictitious priest, played by Marcello Mastroianni, who tries unsuccessfully to persuade high officials at the Vatican to intervene to stop the executions. A Nazi colonel, Herbert Kappler, played by Richard Burton,

proceeds with the killings in the movie in the face of the Vatican's indicated inability or unwilling-After seeing the film in Rome. against Mr. Ponti, Mr. Cosmatos

and Mr. Katz. The defendants are charged with defamation and having offended the memory of Supreme Pontiff Pius XII." 'Indecent Deformation'

"The American Robert Katz." claimed Mrs. Rossignani, "with no consideration for the true version of facts, knowing well that his information was drawn from public or authentic sources, relates tragic events that occurred in Rome during March, 1944, with a truly indecent deformation of reality, basing implications on his individual interpretation and evaluation, lacking in critical consideration, in a way that the historic outrage coincides and focuses on a defamation of Pope Pius XII, accused of having done nothing to avoid the massagre though informed of the retaliation ordered

by the German SS." Deputy Attorney General Gior-Santacroce examined the complaint and found sufficient grounds to present a criminal indictment. He will serve as the

public prosecutor. Mr. Santacroce's father acted as public prosecutor against Col. Kappler when he was tried after World War II in Italy and sentenced to life imprisonment. Col. Kappler is still in an Italian military prison.

In a statement issued on the eve of the trial, Mr. Katz declared: "I am amazed that for a work of history, motivated by objective research. I am required to appear before a penal tri-'Historical Method'

"I have not defamed Pius XII. Following the dictates of my

conscience and after having examined the documents available to me, I have merely adopted the historical method recounted a few tragic pages in the history of Rome under Nazi domination. "I believe that Pius XII, like many other popes in the history

of the church, pursued a certain religious and political policy in which—as has been explained by Pope Paul VI-an attitude of protest and condemnation . would have been not only futile bu harmful." Mr. Katz says that when his

book first was published in 1967 the Vatican attacked the work "a vicious lie" and said that it would respond with documents disproving his conclusions at .ut the Vatican's failure to intercede on behalf of the hostages. "Thousands of documents of the

Holy See have in fact been published," said Mr. Katz, "without having produced a single docuin refutation of my work to Los Angeles Tunes.

Obituaries

H.E. Bates, Wrote of RAF, English Countryside, at 68

British author who brought the peace of the English countryside and the wildness of war to his readers throughout the world, died in .Canterbury Hospital to-

Mr. Bates-his initials stood for in 1926 after being fired as a clerk in a leather factory.

He wrote more than 20 novels and scores of short stories. His works were translated into 16 languages and many were made into successful films and television dramas. During World War II, he wrote under the pen name of Flying Officer X. After the war, he traded heroism for rural tales haunted by a melancholy charm, like "The Triple Echo" and "The Watercress Girl."

Mr. Bates was born in 1905 in Kettering, Northamptonshire. He became a cub reporter but gave that up to become a clerk to have more time to write. Wrote in Longhand

From 1931, when he married. he lived in a converted medieval barn in the Kent village of Little Chart, where he wrote all his books in longhand.

"The hand is a marvellous instrument and its communication with the brain is highly important," he once said.

World War II brought him fame. As an official story writer in the Royal Air Force, he was sent on many bombing missions. The works of this period include "Fair Stood the Wind for France." "The Purple Plain" and "The Jacaranda Tree."

After the war, when he returned to his original love—the English countryside—he produced "My Uncle Silas," "Country Tales" and The Beauty of the Dead." He also became an expert gar-

dener and prize producer of begonias. He never missed a cricket match on Little Chart's village green. In 1958 he wrote one of his best-sellers, "The Darling Buds of May." This was a picaresque account of a family of junk mer-

chants who supplemented their income as fruit pickers in the Kentish orchards. 'The Mating Game' The book was filmed in America under the title "The Mating Game," which displeased him.

"Perhaps it is a good thing." "Nobody he said of the title. will recognize it." "Triple Echo," his last novel, written in 1970, told of a young army deserter who disguised him-self as a girl and passed himself off as the younger sister of his girl friend. The relationship is

shattered by the arrival of a rough sergeant who is attracted to the disguised male. The book was made into a successful movie starring Oliver Reed and the Academy Awardwinning actress Glenda Jackson. "The Purple Plain," about the

starring Gregory Peck.

Britain, France and Woman's Work

By Alan Tillier

LONDON (IHT) Britain with its pending equal opportunities bill is a step ahead of France in trying to legislate a better deal for working women.

But the recent spotlight on Marie-France Garaud and Anne-Marie Dupuy, and their power as members of President Georges Pompidou's inner staff, illuminated a fact little known outside Paris, namely France's lead in top jobs of all kinds for women.

A decade of having the president's ear has given Mrs. Dupuy and Mrs. Garaud greater influence than some ministers. Even in France, however, such political power in the hands of women is exceptional. There is customarily a "token" female member of the cabinet; currently there are only eight women deputies in the National Assembly.

Yet the proportion of Prench women in the professions is high. Mrs. Dupuy, just named a member of the prestigious Conseil d'Etat (State Council), and Mrs. Garaud are both lawyers. Any visitor to the Palais de Justice in Paris notices the flocks of women lawyers—political lawyers like Gisèle Halimi, divorce lawyers like Suzanne Blum or specialists in crimes passionnels such as the redoubtable Germaine

The last census in France listed 1,400 female lawyers compared to 6,500 men; 12,700 female doctors (57,000 men); 12,500 pharmacists (13,500 men); and 6,500 engineers compared to 187,000 male engineers. The gap in engineering may seem huge but the 31/2 percent of women in this field is the highest percentage in the Common Market.

Women who shine in top jobs in Paris include Françoise Giraud, editor of L'Express news maga zine, Jacqueline Baudrier, head of a TV channel, Gilberte Beaux, director of the French bank of English tycoon Jimmy Goldsmith, Francine Gomez, the boss of the Waterman pen company.

Claude Servan-Schreiber, publisher's wife and journalist, explains the situation in the professions this way: "It's part of a tradition which dates back to the 17th and 18th centuries when women had their place in the arts and at court. This aristocratic tradition became a model for the bourgeoisie, Brilliant women from this milieu have always had a chance in France."

er of the French bourgeoisie. "On se tient les coudes" (We stick together), as Claude Servan-Schreiber put it. Solange Michau, founder of the

ciations of the grandes écoles (top schools), through family or other personal contacts and sometimes through newspaper ads.

These women remain an elite. Claude Servan-Schreiber points out that a mere .7 percent of all French women earn \$11,000 a year and 13 percent between \$8,500 and \$11,000. "The salary difference between men and women at the top is even bigger than lower down the scale."

Most top jobs in management, financial control, banking and industry are off base for women, says Solange Michau. "Big business in France is conservative and misogynic. The pharmaceuti-

Take away the traditionally high proportion of women in some of the professions and the women's employment scene in France is far from encouraging. The new equal - pay - for - equalwork bill has yet to have an im-

In Britain, women's groups are looking at the opportunities bill with a magnifying glass. "One could drive a posse of prams through the list of exceptions", said Baroness Birk in the House of Lords.

Developments

Among developments in Britain have been the appointment of a woman as news editor of The Guardian and of a spokeswoman at the Foreign Office (the French counter this by pointing out that they have a woman ambassador, a woman orchestra conductor, and a woman can now become a pre-

On the practical level, much is being done in Britain by a peppy Australian woman, Sue Appleton, 27, ex-lawyer and dancer, who

The Tone of an Adventure Story in 'Papillon'

By Thomas Quinn Curtiss

DARIS, Jan. 39 (IHT).—Henri Chartière's account of his penal service and his incredible escape, "Papilion," an interna-tional best seller, has been transformed into an American movie (at the Quintette and the Dragon in English and elsewhere in French). Steve McQueen is the small-time Montmartre crock, sentenced for murder to hard labor in a tropical inferno; Dustin Hoffman is his fellow convict, financier whose audactous swindles have brought him like nunishment. To dramatize prison existence

-be it in Sing Sing or on Devil's Island-requires skill. The dreary prison routine when reproduced with unrelieved realism becomes suffocatingly oppressive as has been recently demonstrated in the films distilled from Solzhenitsyn's novels. Franklin J. Schaffner has been more resourceful in extracting a motion picture from "Papillon," lending it, as far as possible, a picaresque style, the tone of an adventure

Papillon, presented as a modern Jean Vallean, is dominated by a fever for flight. His initial attempts to escape are botched. He is betrayed by bribed guardians; an abhess in whose convent he has taken refuge turns him over to the authorities. He is punished with solitary con-finement, but his spirit is unbroken. At the end, he embarks on a raft of coconut shells on his way to liberty.

Celestial Court

As the script contains an inserted sequence in which Papillon dreams of being arraigned before a celestial court which

condemns him for his wasted life, along at such a pace that a cerit is surprising that some flashbacks of his Montmartre days have not also been included These together with the sight of his jail mate, before being apprehended, transacting his dubious business deals - would have provided welcome variety. The stifling atmosphere of the penal colony—the exercise yard overshadowed by the guillotine in the center-is achieved with Zola-like naturalism. There is intelligent nuance to the character delineation. While the production is of high quality, the film is very long. The story creeps

tain monotony arises. The incongruity of two American stars as French convicts is overcome by the scheme of all-American casting to avoid con-trasting accents, Steve McQueen, haggard and aged for the role's requirements, contributes a forceful portrait of the dauntless Papillon. This is without question his soundest screen performance Dustin Hoffman, who has also undergone such a change for the occasion that he is almost unrecognizable, is a wistful, black-

Steve McQueen and Dustin Hoffman in "Papillon."

"La Villeggiatura" (at the Saint André des Aris in Italian) considers another sort of captivity. Its scene is Mussolini's Italy in which intellectuals were regarded with hostility.

comedy figure, the perfect foil

for the courageous protagonist.

Here, a young history professor, refusing to take the oath of allegiance to Pascism, is driven from his classroom and extled with other political nonconformists to an island. He is not harshly breated. His villa is pleasant and his wife and young child come to live with him. Meanwhile, a suave official seeks to brainwash him into accepting the new order. This false friendship begins to cast its insidious spell, lulling the rebel. But then he discovers that his fellow exiles of more dedicated political convictions are often nuietly murdered.

The conclusion is a rally-roundthe-fieg, post-Marxist message, banal and passe, hardly in har-mony with the presentation of

the professor as a firm advocaof democracy and individu rights. Though far too long an weakened by repetitions and alter gish movement. the film hole the attention with its persuant picture of the Italy of vestering Marco Leto, the director-authorized has shot it in black and white suggest a documentary. There excellent acting by Adalben Maria Merli as the scholar turns man of action, by Milena Vukst as the wife who urges comproms and by Adolfo Celi as the subt island governor.

MUSIC: Reviving a Forerunner of 'Fidelio'

By William Weaver PARMA, Italy (IHT).—Italian

theaters love anniversaries, centennials, birthdays. Such occasions frequently lead to important discoveries, new evaluations of an artist and his achievement. The various "Verdi years," especially the 50th anniversary of his death in 1951, sparked vital revivals of his less wellknown operas, restoring some of them to the normal repertory. Less spectacular, but still signif-

icant have been the centenaries of Perosi, Mercante and others. Ferdinando Paer, who died in Paris in 1839, was born in Parma in 1771. Three years ago, Parma's Testro Regio planned to honor his memory with a production of his opera "Leonora." Financial or organizational difficulties intervened, and it was only last week that the opera was produced. "Leonora" has long been known to musicologists because

its libretto is a direct translation

of the same French libretto that served Beethoven for "Fidelio." Paer's opera was first performed. in Dresden. 13 months before Beethoven's and may even have been heard by the master. In any event, Paer's "Leonora" soon became—like Gazzaniga's "Don Giovanni"-another example of a good work swept away by a masterpiece.
How good Paer's "Leonora" is

emerged clearly in the Regio's praiseworthy production. When you have washed "Fidelio" out of your head-if such a feat can be accomplished-you can appreciate the Parmesan composer's elegant orchestration (and Beethoven may also have appreciated it), his graceful vocal writing, and even his moments of soher passion. The aria cor-responding to Leonora's "Ab-scheulicher" is a long and moving scene, varied in pace and

Opening Performance On opening night, the Amer-

ican soprano Jane Marsh sound-

ed nervous, but she looked and acted with efficacy and brought this difficult moment off. In the second of the opera's two acts, she was much more at ease and her singing took on luster, notably in the duet with Marcellina (as she is called in this version, which assigns the role to a mezzo-soprano). The big tenor aria again, if you are able to forget Beethoven's setting of the scene—is also effective: pathetic, if not heroic, and the young tenor Paolo Barbacini apart from a fleeting Puccinian sob or two, did well with it. The libretto is curious, at least

for severe modern dramatic tastes. The drama of Fedele and Florestano (again, to give the Italian names) is inserted within the framework of an opera buffa, and Rocco is only 2 slightly more sinister Don Pasquale, with Marcellina and Giachino frolicking around. In the last act, when she has momentarily saved her husband's life in a dramatic confrontation, Leonora has to fend off Mar-

Kurt Richebacher, a director of the Dresdner bank in Frankfurt, said he expected American short-term interest rates to fall over the next six months and that with the termination of controls this relaxation will be transferred much more quickly

to European rates.

"There is a direct link now between United States banks and other money markets, via the Euromarkets," said Mr. Richebacher. "This changes the supply conditions so that when American banks become more liquid in three months the effects will be felt rapidly on European markets."

Bankers Agree Other bankers agreed with Mr. Lamfalussy that the market in international bonds, otherwise known as Eurobonds, will con-

tinue to function in Europe. There are two basic reasons for this. One is that all other things being equal, investors prefer Eurobonds because there is no withholding tax on interest payments as there is on bonds issued in the United States.

The second reason is that borrowers in the United States have to go through formidable regulations, such as registering with the Securities and Exchange Commission before issuing recurities. while rules are not so strict in

However, there were questions as to the extent to which American institutional investors - insurance companies, pension funds and the like-would be permitted in the market because of restraints imposed by so-called blue sky" legislation in American states controlling the type of investments institutions can make.

Equal Yields Seen Although Eurobond rates are

now a little higher than equivalent bonds rates in the United States, many specialists in Europe expect that yields will tend to equalize as a result of the new interplay of international marke

that the ending of controls would give a certain edge to international banks which would find themselves in a competitively better position than domestic American banks to make loans in the United States.

Domestic American banks have to apply the cost of maintaining reserve requirements to their loan charges. Additionally, they cannot pay interest on deposits of less than 30 days.

The international banks, or "Eurobanks," as they are known in the trade-frequently London branches of American or foreign banks-do not face such requirements. This could mean, some specialists speculated, that the London branch of an American bank could conceivably be more active in lending in, say, New York City, than its New York City head office.

CM Puts Off Expansion Project Because of slumping big-car sales General Motors Corp. has deferred an expansion project at its Oldsmobile division in Lansing, Michigan, originally announced in 1972 and planned for completion in 1976. GM is also deferring a concurrent expansion at its Fisher body division plant which makes bodies for the Oldsmobiles. Meanwhile Chrysler Corp. is closing two major auto assembly plants in Detroit for half of February and March because of slow sales in blg cars. A total of 9,500 workers will be laid off. At the same time American Motors Corp. confirms that 11 plans to increase Gremlin model production soon. The move will enable the company to essemble about 20 percent more Grenilius this year than in 1973, when it built 93,500.

U.S.-Japan Investment Fund

Merrill Lynch. Pierce. Fenner & Smith Inc.'s Japanese branch, as well as Nomura Securities Co., Sanyo Securities Co. and Dai-Ichi Securities Co. will soon begin selling in Japan an open-end investment trust named United States Trust Investment Fund. Nomura reports. The Finance Ministry began discouraging Japanese invest-ments in foreign securities early this month because of the country's deteriorating international balance of payments. Noming officials say, however, the ministry approved the application from the securities firms to market the investment fund as an exceptional case because the application was made last autumn. The fund mainly incorporates shares of U.S. firms listed on the New York Stock Exchanges.

Phoenix Gummi-Werke Expects Loss Phoenix Gummi-Werke e::pects to make a loss of around 8 million marks in 1973 after another difficult year and expects to pay no dividend for the second year running. Executive board chairman Peter Weinling says European group turn-over was 630 million marks, up from 568 million marks in 1972. The 1973 loss will be carried forward and is amply covered by reserves. Mr. Weinling says Phoenic hopes to break even in the current year and possibly become profitable aguin in 1975.

Ford Germany to Go on Short Time Ford Werke AG plans to introduce short-time working next month for about 13.500 of its em-ployees in Cologne and Genk in Belgium because of slow demand and a shortage of supplies from Ford in Britain, where the company's production is affected by the three-day week. A spokesman says about 4.500 of the 34.000 work force at Pord's main plant in Cologne will be laid off for periods of between six and 14 working days after Feb. 11. About 9,000 workers at Genk will be laid off for 10 days in February. It is still not known whether short time will be introduced at Ford's Saarlouis plant, where workers were laid off for two periods of five days in January.

December Results May Foretell Slowdown

FINANCIAL NEWS AND NOTES

U.S. Leading Index Rises Only 0.1 Percent

WASHINGTON, Jan. 29 (AP). -The government's last business indicators index for 1973 pointed to a sharp slowdown in business activity in months ahead, the Commerce Department reported

The department's preliminary index of leading business indicators for December increased 0.1 percent, compared with an upward-revised 1.4 percent gain in

While not considered totally reliable, the index is regarded as an indicator of future economic performance.

During most of 1973, the index increased at a rate above 1 per-cent a month. It registered declines in April and September. The Commerce Department has cautioned that conclusions should

not be drawn on the basis of a single month's performance. Nevertheless, the December increase was the slowest growth of any month since June 1971 except for the two declines in 1973.

Only two of the eight business indicators showed increases from November. These were the pricelabor cost ratio and industrial material prices:

Declines were registered in the other five indicators, new orders for durable goods, contracts and stock prices, claims for unemployment insurance and building per-

The average work week remained unchanged at 40.7 hours in Initial claims for unemploy-

ment insurance in December rose sharply to 308.000 from 251.000 in November. Increases in claims are considered a decrease for pur-

PEOPLE IN BUSINESS

Guy de Wouters

Belgian Shell has named Guy de Wouters its new president. He succeeds P. F. Cumberlege. Mr. Wouters was previously head of the company's legal and organizational department.

The indicated index stood at last year's fourth quarter. The 168.7 at the end of December. compared to the 1967 average of 100. It stood at 151.2 at tire end of 1972.

The Commerce Department made a sharp upward revision of the November increase to 1.4 per-cent after a preliminary report showed a 0.4 percent increase. The December index is subject to later revision.

Meanwhile, the Labor Department reported that productivity declined in the private acctor at an annual rate of 1.3 percent in

decline compares with a thirdquarter productivity increase of 0.4 percent on an annual basis. The fourth-quarter drop reflects

a 2.5 percent increase in hours worked compared with a 1.2 percent increase in output. In the non-farm sector productivity in the fourth quarter declined 2.4 percent. In manufacturing, productivity was off 3.8 percent, Over the past four quarters the productivity in the private economy rose slightly less than I per-

New Technique Links Nations In Assessing Energy Crisis

By Soma Golden

NEW YORK, Jan. 29 (NYT),-The energy crisis is with us-or

In Washington, oil industrialists awash in profits wore themselves weary last week trying to convince skeptical senators that the energy shortage was real and dangerous. In Europe some central bankers were muttering about another worldwide depression. The net result for the public and policymakers alike is fusion.

To cut through the fog. economists at least are thinking new thoughts. They are turning their attention to what's happening in the international economy their effort to puzzle out what lies in store for the United States. Last year a myopic concentration on domestic affairs nearly destroyed economists' credibility in a world ravaged by food shortages, commodity scarrities and soaring inflationnone of them foreseen by the

To better their record for at least to try, economists have put to work their newest and most - complex - ever forecasting machine, called Project Link. This is a giant mathematical model Like any economic model. it tries to describe the way the economy works through a set of equations based on past history. As its name implies, the new model attempts to link together for the first time all the world's major economies to predict and describe how a change in activity in one corner of the globe leads to changes elsewhere.

Project Link is still in the development stage after five years of work in more than a dozen economic research centers scat-tered over the globe. But last month at the behest of Treasury Secretary George P. Shultz, himself an economist. Project Link went to Washington for its first tangle with the oil crisis. At a Treasury meeting of some

20 outside consultants, mostly academics the model was unleashed to predict what will happen to the world's economies in the wake of the Arab oil cutbacks and the upward spiral of world oil prices The first results were presented

at the private session by one of Project Link's founders. Prof. Lawrence Klein of the University of Pennsylvania. Economic slowdowns in 1974,

which had been predicted for some industrialized countries before the Arab oil embargo, will most likely worsen. Prof. Klein told the group. Countries that had expected thefore the oil cutbacks) a drop in growth of, say. I percent because of domestic economic problems can now expect a 1,5 percent drop in growth because of the worldwide slowdown in trade that the Arab move is generating, he said.

Beyond this so-called amplifier effect on national growth, the Link men found no evidence at all of an incipient depression like the disaster of the 1930s. Instead they reported a flattening of growth rates in many countries. a dip into recession for a few and greater inflation for all. Specific details on Project Link

findings have been almost impossible to track down. Mr. Klein left soon after the Washington meeting for a sabbatical in Vienna, and the men he left behind at Link headquarters in Philadelphia say the details of the forecast must remain secret because some of the numbers in it are based on sensitive official data from foreign governments. ation on an old theme called econometric model-building. The

new international project attempts to link the best national econometric models available in the world through their foreigntrade sectors. From this per-spective, says Keith Johnson, the 28-year-old economist who is in charge of the day-to-day model work, the energy crisis seems to be looking less and less severe as time passes. The outlook has improved substantially since the forecast that Link made as recently as Jan. 10. Asserting that the oil embargo

now is leaking like a sieve. Mr. Johnson says the biggest impact the Arab move will have on foreign countries will be through higher prices paid for oil and products rather than economic slowdowns caused by shortages of fuel.

Stock Prices Fall Slightly On Big Board Dow Index Drops .69

In Lower Volume NEW YORK, Jan. 29 (IHT).-New York Stock Exchange prices

began on a winning note today but backpedaled gradually in later trading and closed with a small loss. Turnover was light. Investors generally appeared to be marking time pending President Nixon's State of the Union

message to Congress which is to he delivered before a nationwide television audience tomorrow evening. Part of the market's initial gain was attributed to yesterday's Commerce Department report that the United States had a

record trade surplus last month, which pushed the nation's trade account for the year into the black for the first time since 1970. Also, Saudi Arabian Oil Min-

ister Ahmed Zaki Yamani reiter-ated that King Paisal will try to persuade Arab states to lower the export price of crude oil. The Dow Jones industrial aver-

age was off 0.69 to 852.32. while other leading indices also showed small losses. Declines outnumbered advances by around 100 is-

Turnover was 12.85 million shares, down from 13.41 million yesterday. American Motors was the most

active issue on the Big Board, as it has been in several recent sessions. It fell 5 8 to 12 5 8. The issue gained sharply in previous sessions on interest in its compact cars and the report that General Motors was considering buying engines from American Motors. Brokers said some mvestors took advantage of the unexpected surge in the issue to sell out for profits today. Colonial Penn Group was also

active, slumping 4 7 8 to 38 5 8. The company said. There seems to be a number of scurrilous rumors around, none of which is based in fact."

Savings and loan association stocks generally gained after reports of relaxation of monetary policy by the Federal Reserve and a cut in bank prime rates. Financial Federation gained 5/8 to 13 1 4. First Charter Financial was 14 5 8, up 1/2. Gibraltar Financial 14 7 8. ahead 1/2. Imperial 10 5 8. ahead 5/8 and Great Western Financial 20 1/4, up 5 8. Gold mining shares were most-

ly lower as Lullion prices continued to retreat in Europe from recent records After the market closed. Big Steel reported sharply higher fourthquarter per-share carnings, and

boosted the quarterly dividend by 10 cents a share to 50 cents. IBM fell 1 1/8 to 243 1/4. although it raised the quarterly payout by 6 cent, a share to

Copper Range climbed 1 5/8 to 24 7 8. It declared a 13 1 2 cents a share dividend, the first one since 1971.

American Brands rose 1 3 8 to 37 7 8. The company reported higher earnings and raised the quarterly dividend. General Motors rose 1 1/8 to

Merck lost a point to 78 despite improved earnings for the year. Polaroid and Burroughs lost a point or more, while Atlantic Richfield dropped 3 5/8 to 94 3/8 among the oils.

Prices declined in light trading on the American Stock Exchange. The Amex index was off 0.08 at

by 30 percent and exports by less

the chamber said, and the average increase in purchasing power would drop from 6.2 percent in 1973 to 4.5 percent. December Rise 5%

PARIS. Jan. 29 (AP).-French retail prices rose 0.6 percent in the month of December, lifting the French inflation rate for 1973 to 8.5 percent, the Finance Ministry announced today.

The ministry gave these annual rates for other nations: Italy 12.3 percent; Britain 10.6; United States 8.8: Netherlands 8.2: West Germany 7.8 and Belgium 7.3. The December increase was

the lowest since the month of March an was achieved despite higher oil and raw material prices, the ministry said. However, the jump in oil prices b expected to show up strongly in the first months of 1974.

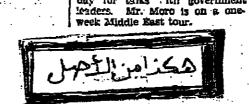

Belgian Price Index Up BRUSSELS, Jan. 29 (Reuters), The Belgian consumer price IDdex jumped 1.32 points to 118.13 in January from 116.81 a month earlier (1971 equals 100), the Economics Munistry said today.

The rise, following a similar jump in December, showed the continuing impact of high oil prices on the cost of living, informed sources commented. In January last year the index rose 0.98 point to 109.85.

alty interest claims. Besides being accurate, it's flexible. It can physically type cheques, credit accounts and make payments through the Clearing House Interbank Payment System (CHIPS). It's capable of interfacing with Fed Wire, Bank Wire and eventually S.W.I.F.T. in Europe. And its design permits processing of all

All of which might suggest that maybe it's time to forget your old system and put MARTI' to work for you. After all, to err is only human. But MARTI isn't.

NOTICE OF REDEMPTION

Ente Nazionale per l'Energia Elettrica-ENEL

71/2 % Per Cent. 15-Year Guaranteed Bonds of 1970

Due March 1, 1985

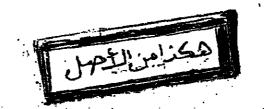

NOTICE IS HEREBY GIVEN, on behalf of Ente Nazionale per l'Energia Elettrica-ENEL, that on March 1, 1974, \$3,500,000 principal amount of its 7½ Per Cent. 15-Year Guaranteed Bonds of 1970 will be redeemed out of moneys to be paid by it to Dillon. Read & Co., as Principal Paying Agent, pursuant to the mandatory, annual redemption requirement of said Bonds and to the related Authenticating Agency-Agreement and Paying Agency Agreement, each dated as of March 1, 1970. The Chase Manhattan Bank (National Association), as Authenticating Agency-Agreement and Paying Agency Agreement, each dated as of March 1, 1970. The Chase Manhattan Bank (National Association), as Authenticating Agency-Agreement and Paying Agency Agreement, each dated as of March 1, 1970. The Chase Manhattan Bank (National Association), as Authenticating Agency-Agreement and Paying Agency-Agency-Agreement and Paying Agency-Agreement and Paying Agency-Agen ticating Agent, has selected, by lot, for such redemption the Bonds bearing the following serial numbers:

Bonds so selected for redemption will become and he due and payable in United States dollars on March 1, 1974, at the office of Dillon. Read & Co., 48 Wall Street, New York, New York 10005, at one hundred per cent (100%) of the principal amount thereof with interest accrued thereon to the redemption date. Bonds should be presented for redemption together with all appurtenant coupons maturing subsequent to the redemption date. If moneys for the redemption of all the Bonds to be redeemed are available at the office of Dillon, Read & Co. on the redemption date, interest thereon will cease to accrue from and after such date.

At the option of the respective holders of bearer Bonds selected for redemption, the principal amount thereof and interest thereon may be collected upon presentation at the offices of the following Co-Paying Agents: in Luxembourg-Ville, Grand Duché of Luxembourg at the principal office of Banque de Paris et des Pays-Bas pour le Grand Duché de Luxembourg S.A., or in Milan, Italy at the principal branch of Banca Commerciale Italiana S.p.A., or in London, United Kingdom at the principal office of S.G. Warburg & Co. Limited, or in Frankfurt, a/M, Federal Republic of Germany at the principal office of Deutsche Bank A.G. Additionally, insurance companies doing business in the Republic of Italy may present for redemption Bonds registered as to principal, which they own, at the principal branch of the Co-Paying Agent in Milan, Italy. Agent in Milan, Italy.

. A SHOT

BLONDIE

The winning line of play in the diagramed deal is not obvious, to make anyway. The question and provides a good test for was to find a play that would offer some chance if East held

Most players with the South hand would respond two hearts to one spade. However South took a conservative course by bidding one no-trump and following with two hearts. Game was still reached when North invited it by bidding three hearts.

The bidding suggested the pos-sibility of diamond ruffs in the dummy, so West led the ace and another trump. South could count nine tricks, but the 10th was not guaranteed There was an obvious danger of losing two diamonds and a club in addition to the heart ace.

There was no point in at-tempting to establish the fifth spade in the dummy—such a maneuver would help only if the NORTH (D)

A AK763 ♥ QJ ♦ 95 🛊 AJ72 WEST EAST **♦** Q42 ♥ A7 ♦ AJ74 A J1098 ♡ 852 ♦ Q1083 **10843 SOUTH ♣** 5 ♥ K109643 O K62

& K65 Both sides were able. The bidding: East Pass Pass North I N.T. 2 0 Pass Pass Pass Pass Pass

West led the heart ace.

By Alan Truscott club jack was an entry, in which case the contract would be easy

diamond ace. South saw a safety-play chance and took it. He overtook the second round of trump with his king and drew the last trump. Then he played the ace and king of clubs, rejecting the finesse. If West held the club queen, the contract was still safe, for a third club lead would establish

the jack and provide for two

the club queen and West the

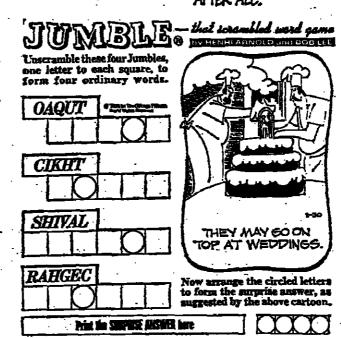

diamond discards. South's play was rewarded when the queen dropped doubleton from East. He cashed two spade winners, discarding a diamond, and tried a diamond lead to the king. When this lost to the ace, he claimed 10 tricks. After the fall of the club queen there was actually a double-dummy way to make an overtrick: cash the spade winners, ruff a spade and lead the remaining trumps. To keep the club guard, West would have to have the diamond ace, and South would lead his remaining low diamond.

THE CASE WORKER

By George Konrad. Translated from Hungarian. 4. Helen and Kurt Wolff Book, Harcourt Brace Jovanovich. 173 pp. \$6.95.

Reviewed by Irving Howe

society live the speechless. They are the broken and deranged, the flotsem and the lumpens, all those helpless people who have signed a separate peace with reality and now choose not to confront regulations, skills, responsibilities. The hierarchy of class crushes them, but they do not form part of it. They are the waste of modern life, and they are kept going, and kept down, by agents of the state whom we call social workers. Modern literature has noticed them not as "cases" but as creatures. They appear as tragic buffoons in Dostoevsky, rasping comic voices in Céline, grotestues in Nathannel West's "Miss Lonelyhearis," stamps of life in Hu-bert Selby's "Last Exit to Brooklyn." But never, to my knowledge, have they been evoked with such intimate authority and grating clarity as in "The Case Worker." a brilliant first novel by a new writer from Hungary. With this one book George Konrad, him-self a social worker in Budapest, strides to the forefront of contemporary European literature. Because it is an original book,

one grasps at straws of comparison in order to stake out its originality. The claustrophobic atmosphere of unfeeling bureaucracy and torpid streets-a faint of Kafka? The bitarre gaieties of the deformed—perhaps like Grass? A fixation upon physical detail and sensory assault -doesn't it remind one of Smollett? Such comparisons come to mind only to be dismissed: Konrad speaks in his own voice, He speaks as a case worker

fairly decent and competent

bureaucrat whose job it is to record the pleas, the lies, the revelations of his "clients" and then send them to some home.

or to another office, or back to the street. A humane man, he is also a policeman regulating "the traffic of suffering." Who can cope with the battalions of misfits, the regiments of victims?
"My interrogations make me think of a surgeon who sews up his incision without removing the tumor." Something lies imbedded in the nature of things that is radically terrible, not so much evil in purpose or end. as gratuitously malformed. The case worker does his job in Commu-nist Budapest, but except for the absence of drugs, it seems very the world, no matter how terribin much like capitalist Manhattan. Is still the substance of our days.

The narrator makes no accus— The materials of this book are sations and places no blame. He speaks in a rhetoric of dispassionate grief. He is not indignant: who can imagine these shattered 'clients' being stirred to revolt? He is not sentimental: who can suppose them to be models of innocence or morally admirable? They stink, they cheat, they lie quite like successful people. Thrust into the endless web of their troubles, the case worker is shaken, implicated, drawn to their fumbling, stained by their need, He must record everything, be-cause he is "a burden bearer without illusions, specifically of

the complaining type."

But it offers rather little of such traditional novelistic mate-

BENEATH the lowest rung of risks as story and disrecterization. It has a plot of soris, with the narrator becoming involved with an idiot 6-year-old chik whose parents have killed themselves. The case worker abandons his job and family, moves into

a moldy room with the child cleans it, feeds it, plays with it "This child," berely able to communicate its desires and recking of urine, "has become my fate." What is the case worker searching for? Not solidarity with the oppressed, nor any response that can be socially defined. He has been selzed by a kind of meta-physical vision, a persuasion of interchangeability among men, "I search for my fellow man, always certain that the chosen one my brother, is the one who happens to be coming toward me." This quest, for the bottom condition of life fails, as it must and at the end he is again a case worker, almost adjusted, regulat-

ing "the traffic of suffering." It is a powerful book and it gains its power from Konrad's gift for the vignette, the suddenly snapped picture, as if taken through a slightly overfocused cemera. The graphic proce carries one from paragraph to paragraph, with no expectation of pleasure or accumulation of suspense, yet a need to share in the fated journey of a mind seek ing to reach its limits.

Necessarily, there are losses in

this kind of fiction, and the very

sucress of this novel helps to define them. The vignette, the proce snapshot, the virtuoso passage connot yield us that experi ence of a systemed narrative that Lionel Trilling has described as being held soellbound, momentarily forgetful of oneself, concerned with the fate of a person who is not oneself but who also, by reason of the spell that is being cast, is oneself, his conduc and his destiny bearing upon the reader's own." No: in reading "The Case Worker" we are not held spellbound, we are not forgetful of conseiver since the author is trying for other effects —the effects of a kind of ratio cinative blow, shoost a crincinbefore the extreme possibilities of existence. But what saves the book from mere shock is the Konrad believes overwhelmingit in the moral significance of other people's experience, and writes out of the conviction that The materials of this book are of a kind that in recent years have often become the special property of documentary movies -we have even been told that the old-fashioned printed word cannot match the film for vividness But "The Case Worker" shows anyone doubts it, that language remains the greatest of human powers, with unrivaled capacitles for evocation, parallel and echo

punches to the head. Ali reeled

Ali admitted afterward, "He had me out on my feet twice." But this time Ali did not clown. He did not have to because he was composed and able to do mostly what he wanted in maneuvering out of peril.

It was Frazier who seemed to be a bit foolhardy last night. He frequently concentrated on talking and grimacing at Ali to show how unimpressed he was with Ali's punching, but several times took hard blows while doing it. Without Respect

Prazier was booed even before the introduction in mid-ring and appeared to be bent on venting his hostilities by tearing after Ali without respect for his blinding jabs and unusual combinations of starting ith the right hand rather than the customary left. Frazier seemed to be trying to prove something by often stand-ing before the bell, though he

By the fourth round, Prezier's right eye began to puff. He sank sapping punches into Ali's belly, but it was a trim waistline Ali brought into the bout at 212 pounds. His fleetness made it unnecessary to take as many body blows as he did on March 8, 1971, when he simply ran out of energy.

has slipped some. He caught numbing belts to the head that he used to merely lean away from or parry with his arms. But Frazier was more betrayed by the passage of time. He scored mostly by swinging desperately over the top of All's defense, fre-

The Dissent

NEW YORK Jan. 29 (NYI) .--This time they fought from memory. This time the officials said Muhammad All had won in 12 rounds, though many in the bawling crowd in Madison Square Garden disagreed, and one of these could have been Angelo

"You gotta stop him to win!" Ali's trainer shouted as a frenzied Joe Frazier chased his man in last round. "You gotta stop him to win!" Maybe Dundee was only trying to spur the weary Ali to greater effort, and maybe he was scoring the bout. The card in this corner gave

Fracier seven rounds, Ali five, with 7 points for Joe and 6 for Muhammad. I have been wrong in the past and expect to be wrong in the future, probably when Ali is 35, Prezier 33 and they do it all over again. "I think we should go again," the official winner said afterward,

Joe Frazier (left photo) hits Muhammad Ali's chin during second round. Below, All scores hard right to the head in the eighth round.

an ee-vent than anybody in the recorded history of records."

At \$100 tops this time, they drew \$1,053,688 at the gate. Three ago, 20,455 clients paid \$1,352,951 at \$150 tops, but that was for the heavyweight championship of the world. This was for auld lang syne, and money. Nobody will know how much money until closed-circuit television accounts are in, but it will be a maryel if the gross approaches the \$20 million production of 1971.

Past Their Best

It shouldn't. Three years ago, these were undefeated heavyweights in the prime of youth and strength with equally valid claims to the championship of the world. Last night, they came in as former champions, both beaten, both pest their best. They showed it. They fought as well as they are able. Perhaps that is better then most hig men can fight now in the twilight of the sweet tience, but any resemblance to their first encounter was coin-

In the first one, Frazier knocked Ali down and punched his face out of shape. This time it was Joe's face that was beginning to look like the West Side Highway when they finished.

It didn't get that way because of the power of Ali's blows, for as Joe kept telling him throughout the bout, the power wasn't there But Frazier always has fought with his face, taking as many punches as necessary to get in his own heavy shots. And Ali. potshots as he fled, hit that oncoming face often enough. He had to hit it, for it was always Matches like these almost al-

ways stir debate, for followers of the fancy never have agreed on a basic question: do aggressive-ness and heavy hitting cancel out several light shots when the shooter is running away?

The answer last night was no. The officials said no, many qualified judges at ringside said no. and of course the beautiful people who have made a pet of Ali said no. (To Ali's credit, he doesn't court these people, but being there to scream for him has become the in thing to do.) Infinitely Showier

Especially to those somewhat removed from ringside, it must have seemed that Ali was leading all the way, partly because they wanted to believe so but mostly because he is infinitely showier than the crowding, crouching Frazier, even when his punches are glancing off gloves and

"He had me out on my feet twice," All said afterward, "but I'm too skilliul."

Not many who heard believed him, not even those who felt Frazier had won. Ali says things like that because he has to say something or stop breathing. Actually, there was a moment in the second round when Frazier seemed in deeper trouble than Ali ever did. A straight right to the side of the head made Joe stumble, but as Ali tried to rake him with a fusillade, Tony Perez, the referee, got in the way. Mis-takenly thinking the bell had rung, Perez halted the action long enough to give Frazier respite if Frazier needed it.

Probably Joe didn't, for he came charging out for the third round, and that was the first he won, From then on he always came out with a rush, teeth gleaming hungrily. He attacked as remorselessly as ever, taking punishment willingly as always, and until Ali's legs gave out, he tried earnestly to dance and shuffle as of old. When caught be held, heeding neither Frazier's protests nor the referee's warnings.

The shricks of the beautiful people, the feeling that any moment the stalker might capture his prey, the background of this rowdy rivalry and the buildup and the money—all this lent a considerable excitement to the

Yet under it all, the truth was that these were gladiators of deteriorating skills. The bright memories were there, but the tim-

Blank Screen Sets Off Riot

DAYTON, Ohio, Jan. 29 (UPI).—About 8,000 persons attending the Muhammad Ali-Joe Frazier closed-circuit telecast rioted at Hara Arena near here last night when the video portion of the telecast went blank minutes be fore the start of the fight.

"They just went berserk when the screen went blank," a spectator said.

The Montgomery County sheriff's office reported no injuries and said that order was restored within an hour after the fans, who paid \$15 a ticket to see the fight, began the disturbance by throwing

Precious Few Diminish

By Russell Baker

WASHINGTON II Secretary of cooking and shopping, keep the and he is said to be ready to go, President Nixon may have to resign after all, not because of delicate division of tasks. If Watergate but because he is runple to run the

government. At present, with Secretary Shultz still working, the Nixon administration is made up of 10 persons. On June 16, 1972, the eve of the Watergate burglary, the administration by contrast had a

payroll of 7,362 persons in the White House alone, and this did not include 2,722 White House people who had been temporarily assigned to the Committee to Re-Elect the President.

The 10 who are left are President Nixon, Gen. Haig, Ronald Ziegler, Rose Mary Woods, Gerald Warren, Henry Kissinger, Secre-tary of Defense Schlesinger, Roy Ash, William Simon and Shultz, It is hard to see how the government can go on if even one quits. Consider their present division of responsibilities.

Shultz handles the economy, Kissinger deals with foreigners, Simon manages the oil shortage, Schlesinger operates the military and Ash keeps them on their toes by trying to get ahead of them

all in the struggle for power. A struggle for power has to go on in every administration, or it would not be an administration. No exception can be allowed for the present administration, although sensible persons may observe that it has practically no power left to be struggled for. As long as the struggle—even for powerlessness—can be continued, the illusion of power can be maintained. It is Ash's thankless job

to do so. President Nixon, Gen. Haig, Miss Woods, Ziegler and Warren make up what is called "the White House." The President launches and cancels operations, such as Operation Candor, Operation Cut the Candor, Operation Hang Tough, Operation Fight Like Hell

and so forth. Gen. Haig hires and fires lawyers, Miss Woods works in tape and Ziegler and Warren deal with

the press, polish the brass, do the

the Treasury Shultz quits, windows washed and tell the President he is looking great, Obviously, we have here a very Shultz pulls out, it might seem easy to move Ash into his job. Not so. For one thing, Shultz's job may be the most powerful of the 10. If Ash, whose job is struggling for power, were to get such a vital position, everyone would say that he had won the

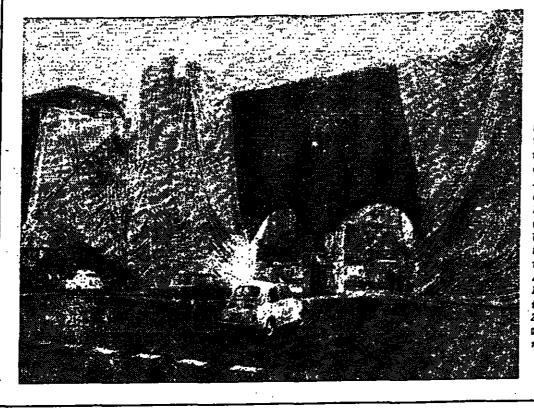

Washington power struggle. This would probably result in resignations by Gen. Haig, Simon and Miss Woods, all of whom would feel that their powers had been reduced. Then, besides having to find somebody to handle the economy, the administration would have to come up with a new oil crisis manager, somebody who can hire and fire lawyers and a new tape handler.

Unfortunately, Ash must stay where he is. Nor can Secretary Schlesinger be moved from the Pentagon to the economy, since the only man who could possibly succeed him, Secretary Kissinger, would then be in the position of having to spy on himself in order to keep the Joint Chiefs of Staff abreast self in order to keep of his thinking. Kissinger is known to believe that spying on

himself is dishonorable. The ideal solution would be to find a new person willing to come into the administration, Feelers which have been put to a number of distinguished persons have not produced results. David Rocke-feller, for example, is reliably said to have replied that while he would be honored to serve in the administration he, unfortunately, has a prior engagement to attend the opera in Milan.

Great pressure is being put on Julie Nixon Eisenhower to fill Shultz's shoes, and she may accept. Warren and Ziegler might conceivably be persuaded to add Shultz's job to their many other duties, although this is doubtful. Both of them did a lot of usly muttering about resignation a few weeks ago when they were told they would have to start doing the White House plumbing repairs and flying the helicopters to Camp David.

Another solution, of course, would be to drop the economy altogether. Considering the shape it's in, this may be the sensible

ANTIQUE COVER-UP

Christo Javacheff, the Bulgarian - born (1935), artist with a penchant for covering things up, is back at it again. This time it is the Aurelian Wall at Porta Pinciana in Rome. He said that he intended "to recall the attention of the spectator; before the metamorphosis of the object, to the reality and mystery, of the object." Among his other cover-ups: La Scala in Milan. Christo is the artist who draped a 250,000 - square - foot curtain across Grand Canyon in Colorado in 1971.

The Success of Worldwide Franchising-and an Exception

By Linda Charlton

NEW YORK, (NYT).—The beaming, bearded face of Ken-tucky's Col. Harlan Sanders is a familiar billboard sight in Hong Kong; McDonald's is booming on the Ginza. Even in the remote corners of the world these days, franchising—everything from houseboal—rentals to pizza -is becoming big business. Fart-food franchising, the most widespread form, has been most successful in such unlikely areas as Asia, and least profitable in

one country that cherishes its home cooking-Italy. McDonald's officials, after two years of test-marketing, concluded that they "could not at present recommend Italy" for the Big Mac. A similar hamburger-and-vari-ations chain, Wimpy, which is highly successful both at home in Britain and in other coun-

losses that it may close its twoyear-old Rome outlet. Just why Italy is an exception to the worldwide franchise success story is partly a matter of taste, and partly of law-or, rather nonexistent law. No

tries, has sustained such heavy

contracts in Italy, and it is ex-tremely difficult to obtain a license to start any kind of retail business. In addition, pressure from small, independent businesses against chain operations it strong and discouraging.

Besides, as an American legal consultant in Milan, Ted Cosh-near, put it, "Italian eating habits are parochial, and [they] don't take well to new foods." At the other end of the acceptance spectrum is Japan, a country noted for its enthusiastic assimilation of the technology,

The McDonald's in downtown Tokyo "is exactly the same as American McDonald's," said Ikue Watanahe of Japan's McDonald's. Even from the size of straws for the chocolate shake to the color of the wastebaskets." Employees even speak English to satisfy Japan's "gaijen," or foreigner, complex.

artifacts and oddities of other

Western franchisers have been quick to exploit this eager mar-ket. Col. Sanders first appeared in 1971, and now has 100 out-

million McDonald's, with 39 company-owned outlets scattered in Japan's urban areas, is not yet franchised, but its Ginza restaurant has hit the highest sales figure of any of the thousands around the world-\$17 per minute in June, 1973.

There are also 33 flourishing Wimpy outlets, 16 Dairy Queen enterprises and 47 Dipper Dan Ice Creams to vary the tradi-tional Japanese diet. The first

'O! Calcutta!' Movie Is Banned in Italy

ROME, Jan. 29 (UPI).—An Italian prosecutor today banned the screening of the film "O! Calcutta!" throughout Italy on grounds the censors did not cut enough obscenity.

When the film opened in five Rome cinemas last week the Rome newspaper II Messaggero commented "In addition to very hig cuts, the censor also imposed a painstaking blackout of all male private parts by means of ink spots... The result is not only grotesque but, watch it to believe it—it's obscene."

legislation regulating franchising was passed last August, although sales account for only 5 to .7 percent of Japan's total retail sales, according to Risanke Matsuzaki a director of the Ja-pan Franchise Association. He noted that the comparable figure in the United States was 30 per-

In Asia, where the tradition of "fast food" has meant, for centuries, the purchase of local delicacies from a sidewalk vendor, Kentucky Fried Chicken has outlets either operating or in preparation in Japan, Malaysia, Singapore and Indonesia, as well as in Australia and New Zealand. Its outlet in Hong Kong, which opened last year, has been dispensing more than 100 tons of chicken—purchased from the People's Republic of China—a

PEOPLE: Margot Fonteyn to Dance For Chile's Reconstruction

Dame Marget Fonteyn, the British hallering, is in Santiago to dance in two gala performances, organized by Chile's rightist military junta to gather funds for "national reconstruc-tion." -Heinz Bosi, star of the Bavarian State Ballet, will be her partner. Dame Margot made an appearance in Santiago last November, two months after the overthrow of Marxist President Salvador Allende, also in aid of Chilean reconstruction.

People reader Robert Mott of Geneva protests (and rightly) that People is all wrong about Salina, Salinas and the late John Steinbeck (IHT, Jan. 26-27). Mott was "born within spitting distance of Salina Kansas... and grew up within a morning's drive of Salinas, Calif. It was the latter in which Steinbeck grew up." All of which puts the Steinbeck restaurant in California and not in Kansas, as reported in the first edition of the IHT.

An Italian civil servant has filed a suit complaining that he gets too much pay for too little work. "I spend my eight hours in almost complete idleness," said Circ Villano of Genca, an architect's assistant for the stateowned expressway complex. "And my pay is 350,000 lire a month." He asked for more work. A Genoa court is considering the case.

Canadian Prime Minister Pierre Trudeau is skiing in Switzerland before attending the three-day Chib of Rome meeting in Salzburg. Austria, beginning Feb. 3. He will be in St. Moritz for the start of the world ski championships on Feb. 2. Mrs. Trudesu is taking a separate vacation in the Caribbean.

Actress Jane Russell, 52 will marry Santa Maria, Calif., real estate broker John Calvin Peoples, 47-they took out a wedding license Monday Miss Russell, who gained fame in the early 1940s in the Howard Hughes film, "The Outlaw," was previously married to pro football player Bob Waterfield. Their 25-year marriage ended in divorce in 1968. She then married actor Roger Barret, who died three months later: Miss Russell has three adopted children, Tracy, Thomas and Robert,

"I made an absolute ass of myself," admitted Mr. Justice Faulks. He was referring to a

Margot Fonteyn ...two gaias.

London divorce case in which he said of the husband, alleged to have kicked his wife: "If he had been a miner in South Wales, I might have overlooked it. But he was a cultured gentleman." The judge later apologized to the nation's miners, currently involved in a wage dispute with the government, after angry reactions began pouring in. An official of the South Wales branch of the National Union of Mineworkers said, "Miners are no more prone to hitting their wives than the rest of the community."

The world has a new doughnut eating champion. Jerry Wright, a 35-year-old truck-driver, guiped last weekend in Los Angeles, beating out 600 other cutrants in the World Doughnut Eating Champlonship. Wright beat by eight the mark set by an unidentified resident of Durham, England, in 1971, according to the Guinness Book of World Records.

* * *

Former chief justice Earl Warren, 82, hospitalized in Inglewood, Calif., last weekend, is reported to be in good condition by his son-in-law, Stuart Brian. His illness isn't considered serious.

Marlene Dietrich is in a Houston hospital for surgery on her leg, her agent said last week. Frank Rio said that the injury, suffered in a fall from a stage in Washington several weeks ago, has not healed. "She's a trouper." he said, "and she wanted to keep
